Product Description

The 3B Scientific® Gynecologic Skills Trainer P91 is an adult-sized lower torso designed as a versatile clinical training tool to add hands-on experience for learners practicing gynecologic skills. It is an excellent tool for developing diagnostic skills and learners confidence to provide patients with high-quality comprehensive care. 3B Scientific SKINlike™ high-quality silicone offers during palpation and bimanual examination a realistic look, feel and texture in addition to a life-like softness. The four different uteri modules with externally palpable abnormal pathologies are easily interchangeable and can be completed with 6 different cervices. **The trainer will be useful for demonstrating the following procedures:**

- Perform bimanual examinations with palpable, realistic, normal and abnormal uteri
- Perform vaginal examination with speculum
- Train vaginal examination with easily interchangeable cervices and have visual recognition of normal and abnormal anatomy variations
- Evaluate multiple conditions using the interchangeable cervices “normal” and “pathologic”
- Pap test for cervical screening
- Practice catheterization (no fluid)
- Suppository administration and digital rectal examination

Interchangeable uteri with externally palpable abnormal pathologies to train diagnostic skills:

- Normal uterus which can simulate an anteflexion or a retroflexion
- Bicornate uterus
- Uterus with removable myomas
- Enlarged uterus (13 cm large, 11 cm high)

Interchangeable cervices for visual recognition of normal and abnormal anatomical characteristics including:

- Normal nulliparous or para 0 cervix
- Normal multiparous cervix
- Ectropion cervix (erosion)
- Dysplasia cervix
- Cervix with carcinoma
- Barrel-shaped carcinoma cervix

Additional Features: Adult-sized female lower torso with accurate anatomy, including ischial spines, pubic bones and sacrum for a realistic examination Leg stumps already in examination position and with the gynecologic examination wedge the possibility to simulate a leaned position of the patient as in a gynecological examination chair The bladder can be simulated full or empty to make the palpation of

the structure possibly restricted Offers realistic flexibility of the vaginal canal wall Seamless, flexible skin for practice of speculum placement Labia can be realistically separated Urethra built for catheterization simulation with CH 14 catheter Abdominal wall can be removed quickly and without any tools to change the uterus and the cervix easily Latex free **Delivery content:**

- Gynecologic Skills Trainer P91
- Uteri set (4):

Normal uterus Bicornate uterus Uterus with 3 removable myomas structures Enlarged uterus

- Cervices Set (6):

Normal nulliparous or para 0 cervix Normal multiparous cervix Ectropion cervix (erosion) Dysplasia cervix Cervix with carcinoma Cervix with barrel-shaped carcinoma

- Gynecologic examination wedge
- Lubricant (2 x 250 ml)
