SKU:

Categories: Male Examination

Product Description

Self-examination of the testicles is just as important as self-examination of the female breasts for early detection of tumors. Providing exceptional realism, this simulator features soft, thin outer skin with delicate underlying structures and four embedded, simulated tumors. Ideal for teaching proper palpation techniques. To maintain the lifelike feeling of the skin, baby powder (included) should be applied from time to time.

The Testicle Self Examination Model (Item No. LF01143U) by Nasco Healthcare, USA, is a highly realistic clinical training simulator designed to teach proper testicular palpation techniques. Just as breast self-examination is vital for women, regular testicular self-examination plays a crucial role in the early

detection of tumors in men. This model features soft, lifelike outer skin with delicate underlying structures and four embedded simulated tumors, providing an authentic hands-on training experience for medical professionals, students, and health educators. Baby powder is included to maintain the realistic skin texture. Compact and lightweight (0.5 kg, 23.5 × 16 × 6.5 cm), it is an ideal tool for clinical skills training and men's health education programs.

Why Choose SEM Trainers?

SEM Trainers is India's leading supplier of anatomical models, medical simulators, and health education tools. With decades of experience and a carefully curated product portfolio sourced from globally trusted manufacturers like Nasco Healthcare, SEM Trainers ensures that every product meets the highest standards of quality, accuracy, and durability.

By choosing SEM Trainers, you benefit from:

- Access to world-class medical training equipment
- Expert guidance in selecting the right products for your educational needs
- Reliable after-sales support and service
- Competitive pricing for institutions and individual buyers

Q. What is the Testicle Self Examination Model used for? A: It is used to teach and practice proper testicular self-examination and palpation techniques, helping in the early detection of testicular tumors. It is ideal for medical training, clinical skills education, and men's health awareness programs.

Q. Who is the manufacturer of this model? A: This model is manufactured by **Nasco Healthcare, USA**, a trusted name in medical simulation and health education products.

Q. What is the item number of this product? A: The item number is **LF01143U**.

Q. What are the dimensions and weight of the model? A: The model measures **23.5 × 16 × 6.5 cm** and weighs **0.5 kg**, making it compact and easy to handle during training sessions.

Q. How many simulated tumors does the model include? A: The model includes **four embedded simulated tumors**, allowing learners to practice identifying different types of abnormalities through palpation.

Q. How realistic is this model? A: The model offers exceptional realism with soft, thin outer skin and

delicate underlying structures that closely mimic the feel of actual tissue, providing a highly lifelike training experience.

Q. How do I maintain the model? A: To maintain the lifelike texture of the skin, **baby powder** (which is included with the model) should be applied periodically.

Q. Is this model suitable for student training? A: Yes, it is ideal for medical students, nursing professionals, clinical educators, and health awareness trainers looking to teach proper palpation and self-examination techniques.

Q. Where can I enquire about purchasing this product? A: You can add the product to the enquiry cart on the SEM Trainers website or contact them directly at **+91-88495 63724** or **+91-98791 03905**

Q. What category does this product fall under? A: This product is listed under **Medical Simulators ? Clinical Skills Trainers ? Male Examination** on the SEM Trainers website.
