SKU:

Categories:Male Examination

Product Description

Why Choose the KERi™ Complete Nursing Skills Manikin for Your Nursing College or Skills Lab in India?

The KERi™ Complete Nursing Skills Manikin (Item No. LF04020U / W44075, MPN: LF04020U) is a full-size, dual-gender nursing skills simulation manikin from Nasco Healthcare / Lifecast Body Simulation, USA — purpose-built for BSc Nursing, GNM, ANM, and post-basic nursing programmes, hospital in-service training departments, and clinical skills labs in India where comprehensive patient care competency across more than 35 procedures is a curriculum requirement. At 13.5 kg with a full, non-pinching range of motion across every major joint, the KERi™ Complete moves and responds like a real adult patient — making it the benchmark full-procedure nursing manikin for OBRA-aligned and INC-curriculum nursing training in India.

The KERi™ Complete ships with both male and female genitalia and a wig, converting between male and female patient presentations without any additional purchase. The Life/form® moulding technology gives the manikin a realistic, non-age-specific adult appearance with the soft, lifelike skin texture that makes procedure practice feel authentic rather than mechanical.

Nursing and Patient Care Procedures — What the KERi™ Complete Trains:

The Complete tier covers every skill in the Basic module and adds the extended clinical skills essential for ward-competent nursing practice:

Core Skills Module (shared with Basic):

- Skin inspection and care — Decubitus Sacral Ulcer (Stage 1), Cancerous Mole comparison, Dilated Pupil comparison, Reddened Skin Folds
- Bandaging and Wound Dressing (including individual fingers and toes)
- Bed Baths and Hair Care (washing and combing)
- Clothing Changes
- Denture Placement and Removal (upper and lower sets)
- Ear Canal Irrigation, Otic Drops, and Hearing Aid Placement/Removal
- Eye Irrigation
- Intramuscular Injection (arm, thigh, and buttock sites)
- Oral and Nasal Hygiene — lavage, gavage, and suctioning
- Ostomy Care — ileostomy and colostomy, appliance application, lavage, and suctioning
- Patient Positioning and Transfer Techniques
- Pericare
- Tracheostomy Care — lavage and suctioning

Complete Tier — Additional Skills:

- **Gastrostomy Care**
- **Pap Smear and Douching** (female)
- **Enema Administration** (female)

- **Prostate Examination — Stage B**
- **Urinary Catheterisation — Female and Male (Uncircumcised)**
- **Nasogastric Tube Placement**

Full Range of Motion — Joint Coverage:

Every major joint is fully articulated: trunk (rotation, hyperextension), neck (rotation, hyperextension, lateral flexion), shoulder and hip (abduction, adduction, rotation, hyperextension), elbow (extension, flexion, pronation, supination), knee (extension, flexion), wrist (flexion, hyperextension, radial and ulnar flexion), ankle (eversion, inversion, dorsiflexion, plantarflexion), and individual fingers and toes (abduction, adduction, flexion — soft, lifelike material). No pinching — safe patient handling technique is trainable end to end.

Optional Accessories for Extended Training (available separately):

- IV Arm Attachment — adds IV insertion training (upgrade to Advanced tier capability)
- Blood Pressure Arm — adds BP monitoring training

Included in the Box: Male and female genitalia, wig, upper and lower dentures, hearing aid, 12 cc syringe, 140 cc syringe, lubricant spray, fluid drainage basin, stomach reservoir bag, bladder reservoir bag, bladder reservoir pressure sleeve, 16 FR Foley silicone catheter, enema reservoir bag. Delivered in a storage carton. Carry case not included.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states in India. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: Is the KERi™ Complete a male or female manikin? A: Both. The manikin ships with male genitalia, female genitalia, and a wig — switching between male and female patient presentations takes seconds with no additional purchase required.

Q: What is the weight of the KERi™ Complete? A: 13.5 kg. The manikin is delivered in a storage carton; a carry case is not included and is not available for this model.

Q: What is the difference between the KERi™ and the GERi™? A: The procedure modules at each tier are identical. The difference is appearance — the KERi™ has a non-age-specific adult appearance; the GERi™ has an elderly appearance with realistic skin wrinkles and folds for geriatric care training. Both the KERi™ Complete and the GERi™ Complete are available from SEM Trainers.

Q: What does the Complete tier add over the Basic KERi™? A: The Complete tier adds gastrostomy, pap smear and douching, enema administration, prostate examination (Stage B), urinary catheterisation (female and male uncircumcised), and nasogastric tube placement. See the comparison table below for the full feature breakdown across all four tiers.

Q: Can IV insertion and blood pressure training be added to the KERi™ Complete? A: Yes — via the optional IV Arm Attachment and Blood Pressure Arm, available separately. Alternatively, the KERi™ Advanced (LF04022U) includes these features as standard. Contact SEM Trainers for pricing.

Q: Is this manikin suitable for OSCE nursing station use? A: Yes. The full joint range of motion, quick gender conversion, and comprehensive procedure coverage make the KERi™ Complete well suited to OSCE nursing skills stations, in-service ward training, and faculty demonstration.

Q: Does this manikin fulfil OBRA requirements? A: Yes. The KERi™ Complete is designed to fulfil all OBRA (Omnibus Budget Reconciliation Act) nursing training requirements, making it internationally compliant for nursing skills curriculum certification.

The Complete Nursing Skills Manikin KERi™ uses Life/form® molding and modeling techniques to provide an unusually realistic appearance without being age-specific. Life/ form® simulations have been included in KERi™ to allow the practice of more than 35 patient care procedures. The training manikin fulfill all OBRA requirements. **The following nursing and patient care procedures can be performed:**

- Prostate examination (Stage B)
- Ostomy Care (Ileostomy and colostomy lavage and suctioning)
- Tracheostomy care (lavage and suctioning)
- Placement of Nasogastric tubes
- Oral and nasal lavage, gavage and suctioning
- Enema administration (female), pap smears and douching
- Intramuscular Injection (arms, thigh, buttock)
- Oral hygiene (removable upper and lower denture)
- Eye irrigation, bed baths, hair care (washing, combing)
- Patient positioning and transfer techniques, clothing changes
- Ear irrigation and hearing aid placement and removal
- Bandaging and wound dressing (including fingers and toes)
- Urinary Catheterization - Female and Male (Uncircumcised)

Visual Inspection Features include:

- Decubitus Sacral Ulcer - Stage 1
- Dilated Pupil Comparison

- Cancerous Mole Comparison
- Reddened Skin Folds

Complete Range of Motion include:

- Trunk - Rotation, Hyperextension
- Neck - Rotation, Hyperextension, Lateral Flexion
- [Shoulder](#) and hip- Abduction, Adduction, Rotation, Hyperextension
- Elbow - Extension, Flexion, Pronation, Supination
- Knee - Extension, Flexion
- Wrist - Flexion, Hyperextension, Radial Flexion, Ulnar Flexion
- Ankle - Eversion, Inversion, Dorsiflexion, Plantarflexion
- Fingers and toes - Abduction, Adduction, Flexion (soft, lifelike material)

For additional training benefits: Add the optional [IV Arm Attachment](#) and [Blood Pressure Arm](#)
The manikin is delivered with:

- Male and Female Genitalia
- Wig
- Dentures
- Hearing Aid
- *12 cc Syringe
- Lubricant Spray
- Fluid Drainage Basin
- Stomach Reservoir Bag
- Bladder Reservoir Bag
- Bladder Reservoir Pressure Sleeve
- 16 FR Foley Silicone Catheter
- *140 cc Syringe
- Enema Reservoir Bag

Delivered in a storage carton. Carry case not included.
