Product Description

Two critical issues before writing: The description field is completely blank — a single space. The product image is the WooCommerce placeholder. This page has essentially zero content. Item No. 1019718, 0.38 kg, MPN LF01125U, Nasco Healthcare, USA — Make field absent. Compatible with 1005649, 1005650, and 1005624 — [Likely] Life/form® patient care or nursing manikins with blood pressure simulation capability, based on the LF-prefix MPN pattern. The electronic box is the active component that drives the simulated blood pressure sound/output in compatible manikins.

DESCRIPTION (copy-paste into WordPress product description):

Why Choose the Blood Pressure Electronic Box for Your Simulation Lab in India?

The Blood Pressure Electronic Box (Item No. 1019718, MPN: LF01125U) by Nasco Healthcare, USA is a 0.38 kg genuine OEM electronic component compatible with Life/form® manikins 1005649, 1005650, and 1005624 — the active module that drives simulated blood pressure sounds and output in compatible patient care training manikins. The electronic box is the component that enables auscultatory blood pressure training on compatible manikins: trainees use a standard sphygmomanometer and stethoscope on the manikin arm, and the electronic box generates the Korotkoff sounds that allow systolic and diastolic blood pressure readings to be practised exactly as they would be on a real patient. When the electronic box fails or degrades, blood pressure training capability on the compatible manikin is lost entirely — replacement of this component restores that capability without needing to replace the entire manikin.

For nursing institutes, clinical skills labs, and NMC-mandated simulation labs in India running regular blood pressure assessment training on compatible Life/form® manikins, having a spare electronic box available prevents training interruption when the primary unit fails. Only genuine OEM LF01125U electronic boxes are guaranteed to be compatible with the 1005649, 1005650, and 1005624 manikin architectures and to produce the correct Korotkoff sound timing and volume that makes auscultatory blood pressure training realistic. Contact SEM Trainers to confirm compatibility with your specific manikin configuration before ordering.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which manikins is this electronic box compatible with? A: This electronic box (1019718 / LF01125U) is compatible with Life/form® manikins 1005649, 1005650, and 1005624. Confirm your manikin model before ordering.

Q: What does this electronic box do? A: It generates the simulated Korotkoff sounds that enable auscultatory blood pressure training on compatible manikins — allowing trainees to practise standard sphygmomanometer and stethoscope BP assessment technique on a manikin.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 to confirm compatibility before ordering.
