Product Description

for W44001, W44069, W44070, W44253, W44255 The 10 Lower Airways (Item No. 1005602 | MPN: LF03300U) is a genuine replacement accessory pack manufactured by Nasco Healthcare, USA, containing 10 lower airway components designed specifically as replacements for Life/form® BLS manikins — compatible with models W44001, W44069, W44070, W44253, and W44255. Weighing 0.7 kg, this pack is an essential consumable for medical training institutions, BLS certification centers, and simulation labs that regularly conduct adult CPR and airway management training. Using genuine Life/form® replacement lower airways ensures continued hygienic, realistic, and accurate ventilation training across multiple trainees and repeated sessions.

Q1. What are the 10 Lower Airways used for? They are replacement lower airway components used

to maintain the functionality and hygiene of Life/form® adult BLS manikins during CPR and airway management training sessions.

Q2. Which manikins are these lower airways compatible with? These lower airways are designed as genuine replacements for Life/form® BLS manikins W44001, W44069, W44070, W44253, and W44255. Please ensure compatibility with your specific manikin model before ordering.

Q3. How many lower airways are included in one pack? Each pack contains 10 lower airways, providing ample supply for multiple training sessions and multi-trainee use.

Q4. What is the difference between lower airways and tracheal airways? Lower airways replace the lower portion of the airway system in the manikin, while tracheal airways (sold separately as Item No. 1005601) replace the tracheal section. Both are essential consumables for maintaining complete airway functionality in Life/form® BLS manikins.

Q5. When should lower airways be replaced? Lower airways should be replaced when they show signs of wear, damage, or reduced airflow performance during ventilation and rescue breathing training exercises, or periodically to maintain hygiene standards across multiple trainees.

Q6. Why is it important to use genuine replacement lower airways? Using genuine Life/form® replacement components ensures the manikin continues to perform as designed, maintaining training accuracy, realism, and hygiene without the risk of incompatibility or damage from third-party parts.

Q7. Who manufactures this product? It is manufactured by Nasco Healthcare, USA — a globally trusted brand in medical simulation and BLS training equipment.

Q8. Who is this product ideal for? It is ideal for medical colleges, nursing institutes, BLS certification centers, emergency care training facilities, and simulation labs that regularly use compatible Life/form® adult BLS manikins for CPR and airway training.

Q9. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.
