SKU:

Categories:BLS and CPR Accessories

Product Description

Replacement lungs for full-body trauma cpr manikins (1018871), package of 20.

Why Choose the Replacement Lungs for Full-Body Trauma CPR Manikins for Your Simulation Lab in India?

The Replacement Lungs (Item No. 1019296, MPN: SB25232U) by Nasco Healthcare, USA is a pack of 20 genuine OEM replacement lung bags compatible with the full-body trauma CPR manikins (Item No. 1018871) — the internal lung component that inflates visibly during rescue breathing practice, confirming effective ventilation technique. The lung bags are a wear-and-replacement consumable: they degrade with repeated use and puncture from airway insertion, and must be replaced periodically to maintain the correct lung compliance feel and the visible inflation feedback that rescue breathing training depends on. A 20-pack provides a substantial working stock before

reordering.

For ATLS training centres, trauma nursing programmes, BLS certification centres, and hospital in-service programmes in India running regular ventilation and CPR training on the full-body trauma CPR manikins (1018871), maintaining a stock of SB25232U replacement lungs ensures training is never interrupted by a degraded or perforated lung bag. When a lung bag fails to inflate correctly during rescue breathing — due to small perforations from airway manipulations or material fatigue — ventilation training loses the visible feedback that trainees and instructors depend on to confirm technique. Replacing with genuine OEM SB25232U lungs restores the original compliance resistance and inflation volume that the 1018871 manikin's ventilation pathway is designed to deliver. Only genuine OEM replacement lungs are guaranteed to match the original lung bag dimensions and compliance characteristics of the 1018871 manikin's lung cavity.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM consumables to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which manikin are these replacement lungs compatible with? A: This pack (1019296 / SB25232U) is compatible with the full-body trauma CPR manikins, Item No. 1018871, by Nasco Healthcare. Confirm your manikin model before ordering.

Q: How many lungs are included? A: This is a pack of 20 replacement lungs.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare consumables with pan-India delivery.
