Product Description

Replacement foam for corpulent practice manikin Fat Old Fred 1005685

Why Choose the Replacement Foam for Corpulent Practice Manikin for Your Simulation Lab in India?

The Replacement Foam for Corpulent Practice Manikin (Item No. 1018481, MPN: LF03777U) by Nasco Healthcare, USA is a genuine OEM replacement foam insert for the Life/form® Fat Old Fred™ Corpulent Practice Manikin (Item No. 1005685) — the foam padding component that creates the obese patient torso shape and the additional chest compression depth that the Fat Old Fred™ manikin specifically trains. The foam insert is the component that distinguishes corpulent manikin training from standard CPR manikin training: it simulates the additional subcutaneous tissue that trainees must compress through to achieve the correct sternum depression depth on an obese patient — a physically different and more demanding

task than standard adult CPR that many trainees have not practised before they encounter it in a clinical emergency.

For ACLS training centres, nursing institutes, hospital in-service programmes, and NMC-mandated simulation labs in India running obese patient CPR training on the Fat Old Fred™ manikin, the foam insert degrades with repeated compression cycles over time — losing its original density and the resistance feedback that makes obese patient CPR training realistic. Replacing the foam with a genuine OEM LF03777U insert restores the correct compression depth resistance that validates trainee technique on corpulent patient anatomy. Only genuine OEM foam is guaranteed to replicate the original density and shape of the Fat Old Fred™ manikin's corpulent torso profile — third-party foam inserts may not deliver the correct compression resistance or fit the manikin's outer skin correctly.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which manikin is this foam compatible with? A: This foam insert (1018481 / LF03777U) is a replacement part for the Life/form® Fat Old Fred™ Corpulent Practice Manikin (Item No. 1005685) by Nasco Healthcare.

Q: Why does the foam need to be replaced? A: The foam insert loses density with repeated compression cycles, reducing the compression resistance that makes obese patient CPR training realistic. When compression feel becomes noticeably easier than the original, foam replacement is due.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare OEM parts with pan-India delivery.
