Categories:BLS Adult

Product Description

This adult manikin features training of basic and advanced patient care as well as Basic Life Support functions. Features include: • Oral and denture hygiene • I.M. (arm and buttock), i.v and subcutaneous injection • Ostomy care (colostomy, ileostomy, and suprapubic stoma, each connected to an internal

tank) • Naso-gastric lavage and gavage • Male and female catheterisation • Enema administration • Vaginal douching and pap smear exercises • Palpable prostate • Breast palpation (interchangeable male and 7 abnormal female breasts) • Amputation stump • 2 decubitus ulcers • Eyes open and close (one pupil is dilated) • Regular or counter pulsation CPR (Anatomically painted outline of cardiopulmonary features) • Mouth to mouth resuscitation • Palpable carotid pulse • CPR Monitor: Displays cadence and depth of compression and ventilation Supplied with ten totally disposable one-piece airways, neck brace, and carrying bag.

Why Choose the Code Blue® I Multipurpose Patient Care and BLS Manikin, Medium for Your Simulation Lab in India?

The Code Blue® I Multipurpose Patient Care and BLS Manikin, Medium (Item No. 1005782 / W45001, MPN: S304.M) by Gaumard Scientific, USA is a 17.5 kg, 110 × 56 × 36 cm comprehensive adult training platform combining basic and advanced patient care skills with Basic Life Support functions in a single manikin. For nursing colleges, NMC-mandated skills labs, and multi-discipline simulation centres in India that need one platform covering both clinical nursing procedures and CPR/BLS training, Code Blue® I eliminates the need to purchase and maintain separate manikins for each skill domain.

Clinical skills training capability includes oral and denture hygiene; IM injection (arm and buttock), IV, and subcutaneous injection; ostomy care across colostomy, ileostomy, and suprapubic stoma, each connected to an internal tank for realistic output management; naso-gastric lavage and gavage; male and female catheterisation; enema administration; vaginal douching and pap smear exercise; a palpable prostate; breast palpation with interchangeable male and 7 abnormal female breast inserts for lesion detection training; an amputation stump; and 2 decubitus ulcers for wound care training. Responsive eyes open and close, with one pupil dilated for neurological assessment practice.

BLS capability includes regular or counter-pulsation CPR over an anatomically painted cardiopulmonary feature outline, mouth-to-mouth resuscitation, and a palpable carotid pulse for pulse-check technique. A CPR Monitor displays cadence and depth of compression and ventilation, giving instructors objective real-time CPR quality feedback on the same manikin used for clinical skills training. Supplied with ten totally disposable one-piece airways, a neck brace, and a carrying bag.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Gaumard Scientific products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support. All products carry genuine manufacturer warranty and meet ISO 9001 quality standards.

Frequently Asked Questions

Q: Can this manikin train both nursing skills and BLS/CPR? A: Yes. Code Blue® I is a multipurpose platform covering oral hygiene, injections, ostomy care, catheterisation, breast and prostate examination, wound care, and CPR/BLS with a built-in CPR monitor — all on a single manikin.

Q: What does the CPR Monitor display? A: Cadence and depth of compression and ventilation, giving instructors real-time objective CPR quality feedback during BLS training sessions.

Q: What is included? A: Ten totally disposable one-piece airways, a neck brace, and a carrying bag.
