**SKU:**

**Categories:**BLS and CPR Accessories

## Product Description

The breastplate is used as a replacement part for resuscitation manikin W44597.

## **Why Choose the Breastplate for Resuscitation Torso for Your Simulation Lab in India?**

The Breastplate for Resuscitation Torso (Item No. 1013244, MPN: 100-2807U / PP02807U / SB32230U) by Nasco Healthcare, USA is a 0.13 kg genuine OEM replacement breastplate for the resuscitation manikin W44597. The breastplate is the structural chest component that absorbs the mechanical load of every CPR compression during training — over high training volumes it loses its original compression resistance and spring-back characteristics, causing the manikin to no longer deliver the correct depth feedback that CPR training depends on. Replacing the breastplate with a genuine OEM part restores the correct compression feel and depth confirmation that trainees need for accurate CPR technique calibration.

For BLS certification centres, nursing institutes, hospital in-service programmes, and NMC-mandated simulation labs in India running regular high-volume CPR training sessions on the W44597 manikin, a degraded breastplate is one of the most common maintenance issues that interrupts training quality — and replacing it is the most cost-effective maintenance action versus replacing the entire torso. Only genuine OEM part 1013244 is guaranteed to match the original compression resistance, spring-back, and dimensional fit of the W44597 breastplate. Third-party replacements may not replicate the original mechanical characteristics of the OEM component, resulting in incorrect compression depth feedback that trains trainees to incorrect force calibration.

**Why Buy from SEM Trainers?** SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

## **Frequently Asked Questions**

**Q: Which manikin is this breastplate compatible with?** A: This breastplate (1013244) is a replacement part for the Nasco Healthcare resuscitation manikin W44597. Confirm your manikin model before ordering.

**Q: How do I know when the breastplate needs replacing?** A: When compression depth feedback becomes inconsistent, the sternum no longer springs back correctly between compressions, or the compression feel noticeably softens compared to the original — the breastplate is due for replacement.

**Q: How do I order and get support from SEM Trainers?** A: Contact us at [sem@semtrainers.com](mailto:sem@semtrainers.com) or call +91-88495 63724. We supply genuine Nasco Healthcare OEM parts with pan-India delivery.
