SKU:

Categories:BLS Adult

Product Description

The comprehensive design allows for practice of Heimlich maneuver and abdominal thrusts, as well as CPR and mouth-to-mouth breathing. Realistic anatomical markings (Adam's apple, carotid arteries, navel, rib cage, chest notch) make it easy to learn correct hand placement for checking pulse, performing chest compressions, and more. Provides valuable student feedback and other important features: • Head tilt/chin lift required to open airway • Proper anatomical landmarks • Audible compression "clicker" to ensure proper technique Ideal for group training, allowing every student to have their own manikin. Easy-to-clean heads are dishwasher safe and can easily be sanitized. Lung bags are replaceable. Designed to meet American Heart Association criteria for desirable manikin features. Packed in a rugged nylon carrying case with a supply of 50 face-shield lung bags and an

insertion tool.

Why Choose the CPR Prompt® Adult/Child Manikin, 5-Pack for Your Simulation Lab in India?

The CPR Prompt® Adult/Child Manikin, 5-Pack (Item No. 1017940 / W44712, MPN: LF06100U) by Nasco Healthcare, USA is a 9.5 kg bulk training set of five dual-purpose CPR and choking response manikins, designed to meet American Heart Association criteria for desirable manikin features. Ideal for group training, this 5-pack allows every student to have their own manikin during practice — for BLS certification centres, schools, nursing colleges, and community CPR outreach programmes in India running mid-sized group sessions, this is the most efficient way to scale CPR Prompt® training across a classroom.

Each manikin in the set supports practice of the Heimlich manoeuvre and abdominal thrusts alongside standard CPR and mouth-to-mouth breathing. Realistic anatomical markings — Adam's apple, carotid arteries, navel, rib cage, and chest notch — give every trainee the correct surface reference points for pulse checks, chest compressions, and abdominal thrust positioning. The airway requires correct head tilt/chin lift to open, and an audible compression "clicker" gives every trainee immediate auditory feedback on technique without needing electronic equipment. Easy-to-clean heads are dishwasher safe and lung bags are replaceable for hygienic multi-session use. Packed in a rugged nylon carrying case with a supply of 50 face-shield lung bags and an insertion tool, the set is organised for efficient storage and transport between training venues.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: What is included in this 5-pack? A: Five CPR Prompt® Adult/Child manikins, 50 face-shield lung bags, an insertion tool, and a rugged nylon carrying case.

Q: Does this manikin support choking response training? A: Yes. Each manikin supports practice of the Heimlich manoeuvre and abdominal thrusts in addition to standard CPR and mouth-to-mouth breathing.

Q: How is this different from the single-unit version (1017939)? A: Same manikin design and features — this 5-pack includes five manikins, 50 lung bags, and a nylon carrying case for group training, versus the single unit's cardboard case and 10 lung bags.
