Basic Buddy™ CPR Torso, 10-Pack

Item No. 1005635 [W44106]**Weight** 24kg**MPN:** LF03695U[Read More](#)**SKU:****Categories:**BLS Adult

Product Description

An inexpensive manikin designed for teaching individuals or large groups the life-saving techniques of CPR. The one-piece, [disposable lung/mouth protection bags](#) make this manikin completely sanitary. The airway opens using the head tilt/chin lift method and there is a visible chest rise when ventilated. The xiphoid process provides an anatomical reference point for hand placement and compressions. The manikin features both [adult](#) or [child](#) capabilities. The pack includes 10 manikins, 100 lung/mouth protection bags and 2 carry bags.

The 10-pack version. Item No. 1005635 [W44106], 24 kg, MPN LF03695U, Nasco Healthcare, USA — Make field absent. Notable: $24 \text{ kg} \div 10 = 2.4 \text{ kg}$ per unit, close to the single-unit weight of 2.201 kg (W44108) — the difference accounts for the carry bags and packaging. Includes 10 manikins, 100 lung/mouth protection bags (10 per manikin, matching the single-unit kit ratio), and 2 carry bags.

Why Choose the Basic Buddy™ CPR Torso, 10-Pack for Your Simulation Lab in India?

The Basic Buddy™ CPR Torso, 10-Pack (Item No. 1005635 / W44106, MPN: LF03695U) by Nasco Healthcare, USA is a 24 kg bulk training set of 10 economical CPR manikins, designed for group CPR certification courses where every trainee needs their own manikin. For BLS certification centres, nursing colleges, schools, corporate first-aid training, and community CPR outreach programmes in India running batch training sessions of 10 or more students, this pack delivers the one-manikin-per-student training model at significant cost and logistics efficiency compared to ordering single units individually.

Each manikin in the pack carries the full Basic Buddy™ feature set: one-piece, disposable lung/mouth protection bags that make every manikin completely sanitary with no cross-contamination risk between trainees; an airway that opens using the head tilt/chin lift method with visible chest rise on correct ventilation; and a palpable xiphoid process providing the correct anatomical reference point for hand placement and compression technique. The manikin supports both adult and child capabilities. The pack includes 10 manikins, 100 lung/mouth protection bags (10 per manikin, matching individual unit ratios), and 2 carry bags for organised storage and transport — making this the practical choice for training centres running scheduled batch certification courses across multiple venues in India.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support. All products carry genuine manufacturer warranty and meet ISO 9001 quality standards.

Frequently Asked Questions

Q: What is included in this 10-pack? A: 10 Basic Buddy™ CPR manikins, 100 disposable lung/mouth protection bags, and 2 carry bags.

Q: Is this suitable for a full classroom of trainees? A: Yes. This pack is specifically designed for group CPR certification courses, giving each of 10 trainees their own manikin during practice.

Q: Can this manikin be used for both adult and child CPR training? A: Yes. Each Basic Buddy™ manikin in the pack supports both adult and child CPR capabilities.
