Product Description

The Basic Buddy™ CPR Manikin is a dramatic, inexpensive, and state-of-the-art manikin designed for teaching individuals or large groups the life-saving techniques of CPR. This manikin offers a realistic and affordable way to provide each student with their own CPR manikin. The one-piece, disposable lung/mouth protection system makes this manikin completely sanitary - there is no risk of cross contamination and no need to sanitize the manikins after use! The airway opens using the head tilt/chin lift method, and there is a visible chest rise when ventilated. The xiphoid process provides an anatomical reference point for hand placement and compressions. The manikin also features both adult and child capabilities. Basic Buddy® CPR Manikin 5-Pack manikins are simple to assemble and provide trouble-free maintenance. Rugged carrying bags make transporting the Basic Buddy® CPR Manikin 5-Pack convenient (manikins fit into bags fully assembled). Consists of five adult/child manikins, 50 lung/mouth protection bags, five lung insertion tools, one carrying case, and an instruction manual. Five-year warranty. **NOTE:** When using foam-bodied manikins for AED training use only pads designed for foam body manikins.

Features:

• Adult and Child Capabilities
• No Messy Cleanup
• Lightweight and Portable
• Economical - Each Student Can Have Their Own Manikin

• Totally Sanitary, One-Piece Lung/Mouth Protection System
• Realistic Chest Rise
• Unique Airway System Opens and Closes with Proper Technique
• Simple-to-Use
• Tough and Durable
• Rebreathing Airway
• Anatomically Correct with Palpable Landmarks

Why Choose the Basic Buddy™ CPR Torso, 5-Pack for Your Simulation Lab in India?

The Basic Buddy™ CPR Torso, 5-Pack (Item No. 1005636 / W44107, MPN: LF03694U) by Nasco Healthcare, USA is an 11.99 kg bulk training set of 5 economical, dramatic, state-of-the-art CPR manikins, designed for teaching individuals or mid-sized groups the life-saving techniques of CPR with each student getting their own manikin. For BLS certification centres, nursing colleges, schools, corporate first-aid programmes, and community CPR outreach initiatives in India running smaller batch certification courses, this 5-pack offers the right scale between the single unit and the 10-pack, with a **five-year warranty** backing the set.

The one-piece, disposable lung/mouth protection system makes every manikin completely sanitary — there is no risk of cross-contamination and no need to sanitise the manikins after use. The airway opens using the head tilt/chin lift method with a visible chest rise on correct ventilation, and the xiphoid process provides the correct anatomical reference point for hand placement and compressions. Each manikin features both adult and child capabilities. Manikins are simple to assemble with trouble-free maintenance, and rugged carrying bags make transport convenient — manikins fit into the bags fully assembled, eliminating reassembly time between training venues. The 5-pack consists of five adult/child manikins, 50 lung/mouth protection bags, five lung insertion tools, one carrying case, and an instruction manual. **Important:** when using foam-bodied manikins for AED training, use only pads specifically designed for foam body manikins.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Frequently Asked Questions

Q: What is included in this 5-pack? A: Five adult/child Basic Buddy™ manikins, 50 disposable lung/mouth protection bags, five lung insertion tools, one carrying case, and an instruction manual — backed by a five-year warranty.

Q: Can the manikins be transported fully assembled? A: Yes. The rugged carrying bags are designed so manikins fit in fully assembled, saving setup time at each training venue.

Q: Can I use any AED training pads with these manikins? A: No. Only use AED pads specifically designed for foam body manikins — other AED pad types may not work correctly or could damage the manikins.
