Training for AHA scenarios:

- Provides both audio and written prompts in English
- Cables for training pads plug into the rear of the unit • Volume adjustment
- Large LCD display for written prompts
- Dimensions: 7-1/2" x 5" x 1-3/4"
- Low battery indication
- Powered by a 9V battery

Nasco Life/form® Universal AED Trainer: Prepare students for emergency situations with the Nasco Universal AED Trainer. Simply push a button to set the sequence of events that will help students learn the appropriate steps to follow in both “shock” and “no shock” situations. The instructor can select from

four training scenarios for manual and hands-free training. Once the scenario is selected, the trainer will prompt the student in appropriate actions and responses. Lightweight, compact trainer comes with reusable pads and electrode sets, 9V battery, and operating instructions. Updated with 2005 AHA Guidelines. **Basic Buddy™ CPR Manikin:** The Basic Buddy™ CPR Manikin is a dramatic, inexpensive, and state-of-the-art manikin designed for teaching individuals or large groups the life-saving techniques of CPR. This manikin offers a realistic and affordable way to provide each student with their own CPR manikin. The one-piece, disposable lung/mouth protection system makes this manikin completely sanitary - there is no risk of cross contamination and no need to sanitize the manikins after use! The airway opens using the head tilt/chin lift method, and there is a visible chest rise when ventilated. The xiphoid process provides an anatomical reference point for hand placement and compressions. The manikin also features both adult and child capabilities. Basic Buddy™ manikin is simple to assemble and provides trouble-free maintenance. Consists of one manikin, 10 lung/mouth protection bags, one insertion tool, and an instruction manual.

The Life/form® AED Trainer with Basic Buddy™ CPR Manikin (Item No. 1018857 | MPN: LF03742U) is a comprehensive and affordable combined AED and CPR training package weighing 5 kg, manufactured by Nasco Healthcare, USA. It brings together two essential training tools — the Life/form® Universal AED Trainer and the Basic Buddy™ CPR Manikin — in a single, value-for-money package ideal for first aid, BLS, and AED training programs.

The **Life/form® Universal AED Trainer** prepares students for real emergency situations with audio and written prompts in English, a large LCD display, volume adjustment, and low battery indication. Instructors can select from four training scenarios for both manual and hands-free training, covering both "shock" and "no shock" response situations. The trainer comes with reusable pads and electrode sets, a 9V battery, and operating instructions, and is updated with 2005 AHA Guidelines. It measures 7½" x 5" x 1¾".

The **Basic Buddy™ CPR Manikin** is a dramatic, affordable, state-of-the-art manikin for teaching CPR to individuals or large groups. Its one-piece disposable lung/mouth protection system makes it completely sanitary with no risk of cross-contamination. It features a head tilt/chin lift airway opening, visible chest rise on ventilation, a xiphoid process anatomical landmark for hand placement, and both adult and child CPR capabilities. The manikin is simple to assemble and comes with 10 lung/mouth protection bags, one insertion tool, and an instruction manual.

Q1. What is the Life/form® AED Trainer with Basic Buddy™ CPR Manikin used for? It is a combined training package used to teach both AED operation and CPR skills together. The AED trainer guides students through real emergency cardiac scenarios, while the Basic Buddy™ CPR manikin enables hands-on CPR practice — making it a complete BLS training solution.

Q2. How many AED training scenarios does the trainer support? The Life/form® Universal AED

Trainer supports four training scenarios — covering both "shock" and "no shock" situations for both manual and hands-free training modes — allowing instructors to simulate a range of real-world cardiac emergency situations.

Q3. What prompts does the AED trainer provide? The trainer provides both audio and written prompts in English, displayed on a large LCD screen, guiding students through the correct sequence of actions during each AED training scenario.

Q4. What makes the Basic Buddy™ CPR manikin hygienic for group use? The one-piece disposable lung/mouth protection system eliminates any risk of cross-contamination between trainees, making it completely sanitary and eliminating the need to sanitize the manikin between users — ideal for large group training sessions.

Q5. Does the Basic Buddy™ manikin support both adult and child CPR? Yes, the Basic Buddy™ manikin supports both adult and child CPR training, making it a versatile and cost-effective manikin for a wide range of BLS programs.

Q6. What anatomical features does the Basic Buddy™ manikin have? It features a head tilt/chin lift airway opening mechanism, visible chest rise during ventilation, and a clearly defined xiphoid process as an anatomical reference point for correct hand placement during compressions.

Q7. What is included in this package? The package includes the Life/form® Universal AED Trainer (with reusable pads, electrode sets, 9V battery, and operating instructions) and the Basic Buddy™ CPR Manikin (with 10 lung/mouth protection bags, one insertion tool, and an instruction manual).

Q8. Are the AED trainer guidelines up to date? Yes, the Life/form® Universal AED Trainer is updated with 2005 AHA Guidelines for CPR and emergency cardiovascular care training.

Q9. Who is this package ideal for? It is ideal for first aid training institutes, BLS and AED certification centers, community CPR programs, corporate health and safety training, medical colleges, and nursing institutes looking for a complete, affordable combined AED and CPR training solution.

Q10. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.
