## Product Description

This colorful chart details basic life support techniques. The poster is a great teaching tool for life support skills. Printed on premium glossy (200g) paper. Convenient Poster size 50x67cm (20x26"). **Brand switch** — this is **3B Scientific**, not Nasco Healthcare. Item No. 4006725 [VR1770UU], 0.075 kg, 3B Scientific, Germany. ISBN 978-3-82-940491-4. Size 50 x 67 cm (20 x 26"), premium glossy 200g paper. No MPN field. The existing description is two sentences and is already the most useful factual content on the page — but it's too thin for SEO. Writing the standard format description while keeping it tight for a chart product where there isn't much technical differentiation to elaborate on.

## DESCRIPTION (copy-paste into WordPress product description):

---

### Why Choose the 3B Scientific Basic Life Support Chart for Your Simulation Lab in India?

The Basic Life Support Chart (Item No. 4006725 / VR1770UU, ISBN: 978-3-82-940491-4) by 3B Scientific, Germany is a 50 × 67 cm (20 × 26") full-colour BLS reference poster printed on premium glossy 200g paper — a classroom-ready visual reference covering basic life support techniques for use alongside CPR and BLS training manikins. For BLS certification centres, nursing colleges, hospitals, schools, and NMC-mandated simulation labs in India that run regular CPR and BLS training sessions, a wall-mounted or displayed BLS chart gives trainees a visual reference for the step-by-step BLS sequence — assessment, airway, rescue breathing, and chest compression technique — that reinforces what is being practised on the manikin.

The 200g glossy paper print specification means the chart holds up to the humidity and handling conditions of an active training room better than standard office-weight prints — it can be displayed long-term without lamination. The 50 × 67 cm poster size is large enough to be legible from a training table distance, making it suitable for simultaneous reference by a group during a session. The colourful, visually structured layout makes BLS step sequences accessible for a range of learner backgrounds, from first-year nursing students to hospital support staff encountering BLS training for the first time. Pairs naturally with Life/form® and CPR Prompt® manikins for a complete BLS training station setup.

**Why Buy from SEM Trainers?** SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying medical simulators and training aids to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

### Frequently Asked Questions

**Q: What size is this chart?** A: 50 × 67 cm (20 × 26") — poster size, suitable for wall display or easel mounting in a training room.

**Q: What paper quality is used?** A: Printed on premium glossy 200g paper — durable enough for long-term display in an active training environment without lamination.

**Q: How do I order from SEM Trainers?** A: Contact us at [sem@semtrainers.com](mailto:sem@semtrainers.com) or call +91-88495 63724 for pricing and availability.
