Product Description

10 mouth/nose pieces for infant resuscitation manikin W44541

Why Choose the Mouth/Nose Pieces for Resuscitation Manikin for Your Simulation Lab in India?

The Mouth/Nose Pieces for Resuscitation Manikin (Item No. 1005729 / W44542, MPN: 100-2068U / PP02068U / SB24908U) by Nasco Healthcare, USA is a 1.1 kg pack of 10 genuine OEM replacement mouth/nose pieces for the Kim™ CPR Manikin, Newborn (W44541). The easy-to-replace mouth/nose piece is the hygiene-critical interface point for rescue breathing training — each trainee's mouth-to-mouth ventilation attempt contacts this component directly, making regular replacement essential for hygienic group training sessions.

For NRP training programmes, nursing colleges, and BLS certification centres in India running regular newborn CPR sessions with multiple trainees on the Kim™ manikin, having a stock of replacement mouth/nose pieces ensures each session can proceed with hygienic components without delay. The pack of 10 provides a practical working stock for a single manikin across several training sessions before reordering. Only genuine OEM W44542 pieces are guaranteed to fit the Kim™ CPR Manikin's airway interface correctly, maintaining the correct seal and ventilation pathway that rescue breathing technique training depends on.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM consumables to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.
