Why Choose the 24 Airway Systems for Your Simulation Lab in India?

The 24 Airway Systems (Item No. 1005735 / W44549, MPN: 100-2955U / PP02955U / SB24916U) by Nasco Healthcare, USA is a 0.55 kg pack of 24 genuine OEM replacement airway systems compatible with Nasco Healthcare manikins W44547 and W44554 — including the Kyle™ CPR Manikin, 3-Year-Old (W44547). The airway system is the disposable component that maintains a hygienic, uncontaminated ventilation pathway for each trainee during rescue breathing and CPR training — replacing it between trainees or training days eliminates cross-contamination without requiring manikin disassembly or disinfection between uses.

This is a child/smaller-format airway system — lighter (0.55 kg vs 1.29 kg) and dimensioned for child manikin airway interfaces, not interchangeable with the 24 Adult Airway Systems (W44559) which fits the larger W44552/W44597 adult manikins. For BLS certification centres, nursing institutes, schools, and community CPR training programmes in India running regular child CPR sessions on the Kyle™ (W44547) or the compatible W44554 manikin, a 24-pack provides a practical working consumable stock across multiple training sessions before reordering. Only genuine OEM W44549 systems guarantee the correct fit, seal, and ventilation pathway performance on the compatible child manikin airway interfaces.
