**SKU:**

**Categories:**BLS Child

## Product Description

- Soft, childlike faceskin
- Self-molded hair
- Eyes open and close in realistic eyesockets for ophthalmic procedures
- Fully articulating head and jaw with teeth and tongue
- NG and otic exercises
- Bends at waist as in human
- Jointed elbows and knees
- Realistic hands, feet, fingers, and toes
- Soft upper body skin over hard upper body for realistic feel
- Detachable at waist for easy storage
- Bathing and bandaging activity
- Intramuscular injection sites in left and right upper thighs
- Interchangeable male organ
- Tracheotomy opening
- Male and female catheterization
- Removable internal tanks
- Enema administration
- Neck brace
- T-shirt and shorts
- Soft carrying bag
- Instruction manual
- Oral, nasal, and digital intubation
- Place OP/NP tubes
- Right/left mainstem bronchi
- Place nasal and oral gastric tubes
- Suctioning
- BVM with realistic chest rise
- Chest compression
- Lavage/gavage
- G-tube placement
- Stomas for ileostomy, colostomy, and suprapubic exercises
- Intraosseous infusion
- IV arm with variable, palpable pulses
- Placement of rectal suppositories

The Multipurpose Patient Simulator, 1-Year Old (Item No. 1014623 | MPN: S117.M) is the most comprehensive pediatric patient care and BLS training simulator available for a 1-year-old child. Weighing 8 kg, this full-featured manikin is designed to support an exceptionally wide range of clinical training procedures, making it ideal for medical colleges, nursing institutes, pediatric departments, and simulation labs.

The simulator features soft childlike faceskin with self-molded hair, realistic eyes that open and close in proper eye sockets, a fully articulating head and jaw with teeth and tongue, jointed elbows and knees, and realistic hands, feet, fingers, and toes. It supports oral, nasal, and digital intubation, NG and OP/NP tube placement, BVM ventilation with realistic chest rise, chest compressions, lavage/gavage, and suctioning. Clinical nursing skills include male and female catheterization with interchangeable genitalia, tracheotomy care, G-tube placement, stomas for ileostomy/colostomy/suprapubic exercises, enema administration, rectal suppository placement, intramuscular injection in both thighs, intraosseous infusion, IV arm with variable palpable pulses, neck brace application, and bathing and bandaging activities. Comes with a soft carrying bag, T-shirt, shorts, and instruction manual.

**Q1. What is the Multipurpose Patient Simulator, 1-Year Old used for?** It is used for comprehensive pediatric BLS and nursing care training, covering CPR, airway management, intubation, IV and IO access, catheterization, stoma care, G-tube placement, and over 30 clinical procedures on a 1-year-old child manikin.

**Q2. What airway management procedures can be practiced?** Trainees can practice oral, nasal, and digital intubation, right/left mainstem bronchi placement, NG and OP/NP tube placement, BVM ventilation with realistic chest rise, and suctioning.

**Q3. What vascular access procedures are available?** The simulator features an IV arm with variable palpable pulses and intraosseous infusion sites, allowing trainees to practice both peripheral IV access and emergency IO procedures.

**Q4. Does this simulator support catheterization training?** Yes, it includes both male and female catheterization with interchangeable genitalia, supporting gender-inclusive urinary catheterization training.

**Q5. What stoma and GI procedures can be practiced?** It supports stomas for ileostomy, colostomy, and suprapubic exercises, G-tube placement, lavage/gavage, enema administration, rectal suppository placement, and removable internal tanks.

**Q6. How does this compare to the PEDI® Nursing Care Patient Simulator and Mike® & Michelle® Simulator?** The Multipurpose Simulator (1014623) is the most complete option, offering all features of both other models plus stomas, rectal suppository placement, popliteal pulse, and tracheostomy care — making it the best choice for simulation labs needing the widest range of training

procedures.

**Q7. What accessories are included?** It comes with a soft carrying bag, T-shirt, shorts, neck brace, and instruction manual.

**Q8. Who is this simulator ideal for?** It is ideal for medical colleges, nursing institutes, pediatric simulation centers, emergency training departments, and any facility requiring comprehensive 1-year-old child patient care and BLS training.

**Q9. Where can I purchase this in India?** You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit [semtrainers.com](http://semtrainers.com).
