Categories: Airway Management Child

Product Description

For use with Life/form® Child Airway Management Trainers
Why Choose the Life/form® Child Airway Management Trainer Replacement Lung Set Only for Your Simulation Lab in India?

The Life/form® Child Airway Management Trainer Replacement Lung Set Only (Item No. LF03627U / W44137) by Nasco Healthcare, USA is a 0.025 kg genuine OEM replacement lung set for Life/form® Child Airway Management Trainers. The bifurcated lungs in Life/form® Child Airway Management Trainers serve two critical training functions simultaneously: they inflate visibly with successful ventilation, confirming correct tracheal tube placement, and they enable bilateral auscultation that distinguishes correct bilateral lung expansion from right mainstem or oesophageal intubation. This lung

set is the lungs-only consumable — the companion replacement stomach (LF03628U) is a separate consumable that must be stocked and replaced independently on its own schedule.

The child-scale lung set is proportionally smaller than adult Airway Larry lung consumables and is not interchangeable with them. Only genuine OEM LF03627U material is guaranteed to fit the compatible child trainer airway modules with correct dimensions, correct compliance, and correct inflation response. For simulation labs running regular paediatric intubation training sessions with multiple trainee cohorts, lung replacement is the most frequent maintenance task on child airway trainers. Degraded lungs — from micro-perforations, loss of compliance, or asymmetric inflation — compromise the bilateral auscultation and visible chest rise feedback that are central to tube placement confirmation training. Maintaining a stock of LF03627U prevents training interruption and protects training quality.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM consumables to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which Life/form® trainers is this lung set compatible with? A: LF03627U is designed for Life/form® Child Airway Management Trainers by Nasco Healthcare. Contact us to confirm compatibility with your specific trainer configuration before ordering.

Q: Is the replacement stomach included in this kit? A: No. This is a lungs-only kit. The replacement stomach for Life/form® Child Airway Management Trainers is a separate consumable (LF03628U) and must be ordered independently.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare consumables with pan-India delivery.
