Categories: Airway Management Child

Product Description

Present your students with the challenges they may face in the real world. Advanced Child Airway Management Trainers offer tongue swelling and laryngospasm. This advanced airway management trainer is perfect for practicing skills on pediatric patients and represents the size of an 5-year-old patient. Practice intubation, ventilation, suction, and jaw thrust techniques. Realistic anatomy and landmarks include teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false and true vocal cords, trachea, lungs, esophagus, and stomach. The trainer allows you to practice oral, digital, and nasal intubation, as well as E.T. (Endotracheal Tube), E.O.A. (Esophageal Obturator Airway), P.T.L. (Pharyngeal Tracheal Lumen), L.M.A. (Laryngeal Mask Airway), E.G.T.A. (Esophageal Gastric Tube Airway), and Combitube® insertion. Separate lungs for auscultation. Inflatable stomach bladder indicates esophageal insufflation. With its slightly anterior position, swelling tongue, and vocal cords, the Advanced Child Airway Management Trainer is a great trainer for introductory as well as advanced

training. Includes training stand to mount head, pump spray lubricant, and hard carrying case.

	Head/torso	Age	Digital intubation	Tongue edema	Laryngospasm	Stomach rise	Suctioning	Manual carotid pulse	Defibrillation	Additional features
NG Tube Insertion Trainer *Item No:* 1017250	head mounted on a board	1-year old	-	-	-	Yes	-	-	-	trainer for instruction of nasogastric tube insertion and care
Infant Airway Simulator *Item No:* 1018863	full-body	1-year old	-	-	-	-	Yes	-	-	chest cavity containing realistic organs, nasal passage permits placement of NP tube

Why Choose the Advanced Child Airway Management Trainer for Your Simulation Lab in India? The Advanced Child Airway Management Trainer from Nasco Healthcare is a trusted training tool used across simulation labs in India for hands-on pediatric airway management practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with NMC's competency-based requirements for airway management skills in anesthesiology and emergency medicine. Who Is This Simulator Ideal For? This product is recommended for anesthesia departments, emergency medicine residency programs, paramedic training institutes, and hospitals conducting ACLS/BLS certification courses. Whether you are setting up a new simulation lab or upgrading your existing facility, the Advanced Child Airway Management Trainer offers an excellent balance of realism, durability, and training value. Why Buy from SEM Trainers? SEM Trainers is a leading supplier of medical manikins and simulators across India. Authorized Nasco Healthcare distributor in India. We provide complete support including pan-India delivery, on-site installation, faculty training workshops, and prompt after-sales maintenance. All our products carry genuine manufacturer warranty and meet ISO 9001 quality standards. Frequently Asked Questions Q: Is the Advanced Child Airway Management Trainer compliant with NMC simulation lab requirements? A: Yes, this simulator supports the skill-based training competencies specified under NMC’s CBME framework for Indian medical and nursing institutions. Q: Does SEM Trainers provide installation and training support? A: Absolutely. We offer on-site installation, hands-on demo sessions, and faculty orientation workshops for every product delivered, anywhere in India. Q: What is the warranty and how do I get support? A: All products come with standard manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
