SKU:

Categories: Catheterization

Product Description

This manikin simulates a one-year old infant with rotatable arms and legs (jointed elbows and knees) and articulating head. It allows training of basic and advanced pediatric patient care procedures such

as:

- Bandaging
- Ophthalmic exercises
- Oral and dental hygiene (articulating jaw with teeth and tongue)
- Tube feeding, NG and OG, and gastric suction
- I.m. injection (upper thighs)
- Tracheotomy care
- Male and female catheterization
- Enema administration

Supplied with T-Shirt, shorts, neck brace and carrying bag. Features include:

- Soft, childlike face skin
- Self molded hair
- Eyes open and close in realistic eye sockets for ophthalmic procedures
- Fully articulating head and jaw with teeth and tongue
- NG and otic exercises
- Bends at waist
- Jointed elbows, wrists, knees and ankles
- Realistic hands, feet, fingers, and toes
- Soft upper body skin over hard upper body for realistic feel
- Detachable at waist for easy storage

Why Choose the Mike® and Michelle® Pediatric Care Simulator (1-Year Old) for Your Pediatric Nursing Skills Lab in India?

The Mike® and Michelle® Pediatric Care Simulator (Item No. 1005804 [W45062], 6 kg, 89 × 38 × 22.5 cm, MPN: S110.M) simulates a one-year-old infant with rotatable, jointed arms and legs and an articulating head — designed for training basic through intermediate pediatric patient care procedures.

Trainable skills: Bandaging, ophthalmic exercises (realistic eye sockets with opening/closing eyes), oral and dental hygiene (articulating jaw with teeth and tongue), NG/OG tube feeding and gastric suction, intramuscular injection (upper thighs), tracheotomy care, male and female catheterization, and enema administration.

Features: Soft, childlike face skin, self-molded hair, fully articulating head and jaw, jointed elbows, wrists, knees, and ankles, realistic hands, feet, fingers, and toes, soft upper body skin over a hard body core for realistic feel, and a waist that bends and detaches for compact storage.

Choosing the right pediatric/newborn simulator: This 1-year-old unit sits between newborn-focused simulators (Susie Simon, 3B Scientific Nurse Training Baby) and the more advanced 5-year-old units

(Multipurpose Patient Care Simulator, Nursing Care Patient Simulator). It includes tracheotomy placement and NG/OG tube skills that newborn units don't, but does not include intubation, IV/IO access, BVM ventilation, or G-tube placement, which are reserved for the 5-year-old Multipurpose Patient Care Simulator. Contact SEM Trainers to confirm which age tier matches your curriculum requirements.

Supplied with: T-shirt, shorts, neck brace, carrying bag.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of leading pediatric simulation equipment in India, with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Does this simulator support intubation or IV access training? A: No — those skills are available on the 5-year-old Multipurpose Patient Care Simulator. This unit covers tracheotomy care, catheterization, enema, and NG/OG tube skills.

Q: What age is this designed for? A: A one-year-old infant.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
