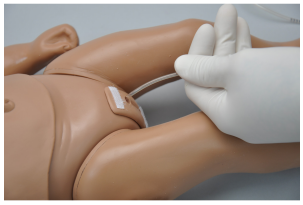
**SKU:**

**Categories:**Catheterization



## Product Description

This manikin simulates a 0-8 week old newborn with rotatable soft arms and legs. It allows training of basic and advanced pediatric patient care procedures such as:

- Bathing and bandaging

- Tube feeding and gastric suction (movable tongue)
- Heel stick and finger prick practice
- Male and female catheterization
- Enema administration

Supplied with T-Shirt, diaper and carrying bag.
**Newborn patient care training features:**

- · Soft and flexible face skin
- · Self-molded hair
- · Realistic eyes
- · NG exercises to demonstrate tube feeding and gastric suction
- · Simulated ear canal
- · Soft arms and legs rotate within the torso body for life-like feel and position
- · Soft hands, feet, fingers, and toes
- · Heel stick and finger prick technique
- · Soft upper body skin over torso for “baby-like” feel
- · Bathing and bandaging activity
- · Intramuscular injection in upper thigh
- · Interchangeable genitalia
- · Urethral passage and bladder
- · Male and female catheterization
- · Enema administration

This closes the loop on the five-way pediatric/newborn comparison table — this is the actual Susie® and Simon® page itself, referenced by all four other products in that family. Clean data, one typo to fix.

[Cert] Item No. 1005802 [W45055], weight 2.006 kg, MPN S100.M. Typo corrected: "situes" ? sites.
[Cert] Explicitly ages this manikin at **0–8 weeks old** — a more specific age range than the simple "newborn" label used in the comparison table, worth preserving since it's a genuinely useful detail for a buyer matching curriculum needs.

[Cert] Per the same five-way comparison table seen on the other four products in this family, Susie Simon uniquely offers **heel stick and finger prick technique** training — not available on any of the other four simulators (Multipurpose, Nursing Care, Mike & Michelle, or the 3B Scientific Nurse Training Baby) — while being the only newborn-tier unit limited to **nasal-only** tube placement (not oral/gastric).

**Why Choose the Susie® and Simon® Advanced Newborn Care Simulator for Your Newborn Nursing Skills Lab in India?**

The Susie® and Simon® Advanced Newborn Care Simulator (Item No. 1005802 [W45055], 2.006 kg,

MPN: S100.M) simulates a 0–8 week old newborn with rotatable soft arms and legs, designed for both basic and advanced pediatric patient care training.

**Trainable skills:** Bathing and bandaging, tube feeding and gastric suction (via a movable tongue), heel stick and finger prick practice, male and female catheterization, and enema administration.

**Features:** Soft, flexible face skin, self-molded hair, realistic eyes, simulated ear canal, soft arms and legs that rotate within the torso for a life-like feel, soft hands, feet, fingers, and toes, soft upper body skin over the torso for authentic "baby-like" feel, intramuscular injection sites (upper thigh), interchangeable genitalia, and a functional urethral passage and bladder for catheterization practice.

**What makes this newborn simulator distinct:** Among the newborn-tier options in this product family, Susie Simon uniquely offers heel stick and finger prick technique training — a genuinely important newborn assessment skill not available on the 3B Scientific Nurse Training Baby. In exchange, tube placement is nasal-only on this unit, while the 3B Scientific alternative supports both nasal and oral gastric tube placement plus lavage/gavage and suctioning.

**Supplied with:** T-shirt, diaper, carrying bag.

**Why Buy from SEM Trainers?** SEM Trainers & Systems is an authorized distributor of leading pediatric simulation equipment in India, with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

**Frequently Asked Questions**

Q: What age range does this simulate? A: A 0–8 week old newborn.

Q: Does this support oral gastric tube placement? A: No — this unit supports nasal tube placement only. For nasal and oral placement with lavage/gavage, see the 3B Scientific Nurse Training Baby.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
