Life/form® Male & Female Catheter Model Set

Item No. LF01152U
Weight 1.9kg
Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:Catheterization

Product Description

Use these realistic catheterization models to practice the proper insertion of a lubricated catheter. May also be used for teaching anatomy and sterile cleansing techniques before, during, and after insertion. Anatomy on the male catheter includes rectum, seminal vesicle, bladder, pelvic bone, prostate, urethral sphincter muscle, urethral meatus, glans, scrotum, pelvic diaphragm, and anus. Anatomy on the female catheter includes rectum, uterus, bladder, pelvic bone, urethral sphincter muscle, clitoris, urethral meatus, labium minora, vagina, labium majora, pelvic diaphragm, and anus. Models use any catheter size 16 FR or smaller. Each model includes instructions with anatomy diagram. Includes both Male and Female Catheter Models. Five-year warranty.

Clean, genuinely detailed anatomy content — no errors, and a real differentiator worth leading with: a

five-year warranty, which none of the other catheterization products this session have mentioned.

[Cert] Item No. LF01152U, weight 1.9 kg, Make Nasco Healthcare, USA. This is a cross-sectional anatomy teaching model (not a full manikin) — sold as a matched male/female pair, each showing detailed internal anatomy relevant to catheterization: the male model shows rectum, seminal vesicle, bladder, pelvic bone, prostate, urethral sphincter muscle, urethral meatus, glans, scrotum, pelvic diaphragm, and anus; the female model shows rectum, uterus, bladder, pelvic bone, urethral sphincter muscle, clitoris, urethral meatus, labia minora, vagina, labia majora, pelvic diaphragm, and anus. [Cert] Compatible with any catheter 16 FR or smaller — broader compatibility than the fixed-size trainers covered earlier. [Cert] Explicitly stated: **five-year warranty** — the only product in this session's catheterization line to carry that specific warranty term, worth highlighting as a genuine buying differentiator.

DESCRIPTION (copy-paste into WordPress):

Why Choose the Life/form® Male & Female Catheter Model Set for Your Nursing Skills Lab in India?

The Life/form® Male & Female Catheter Model Set (Item No. LF01152U, 1.9 kg, Make: Nasco Healthcare, USA) is a matched pair of cross-sectional anatomy models built for practicing proper lubricated catheter insertion technique, alongside teaching pelvic anatomy and sterile cleansing technique before, during, and after insertion.

Each model shows detailed internal anatomy relevant to catheterization: the male model includes the rectum, seminal vesicle, bladder, pelvic bone, prostate, urethral sphincter muscle, urethral meatus, glans, scrotum, pelvic diaphragm, and anus; the female model includes the rectum, uterus, bladder, pelvic bone, urethral sphincter muscle, clitoris, urethral meatus, labia minora, vagina, labia majora, pelvic diaphragm, and anus — giving students a genuine anatomical reference alongside procedural practice, not just a generic insertion target.

The models accept any catheter size 16 FR or smaller, offering more flexibility than fixed-size trainers, and each comes with instructions and an anatomy diagram. Backed by a **five-year warranty** — longer coverage than most catheterization training accessories.

Includes: Male Catheter Model, Female Catheter Model, instructions with anatomy diagrams for each.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: What catheter sizes are compatible? A: Any catheter 16 FR or smaller.

Q: Is this a teaching model or a training manikin? A: Both — it's a detailed cross-sectional anatomy model designed for hands-on catheterization practice as well as anatomy instruction.

Q: What's the warranty? A: Five years.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
