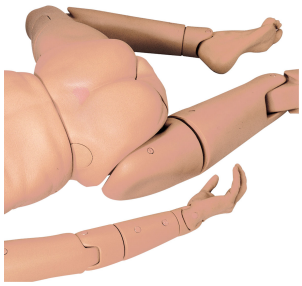
Categories: Catheterization



Product Description

The Complete Nursing Skills Manikin KERi™ uses Life/form® molding and modeling techniques to provide an unusually realistic appearance without being age-specific. Life/ form® simulations have been included in KERi™ to allow the practice of more than 35 patient care procedures. The training manikin fulfill all OBRA requirements. **The following nursing and patient care procedures can be performed:**

- Prostate examination (Stage B)
- Ostomy Care (Ileostomy and colostomy lavage and suctioning)
- Tracheostomy care (lavage and suctioning)
- Placement of Nasogastric tubes
- Oral and nasal lavage, gavage and suctioning
- Enema administration (female), pap smears and douching
- Intramuscular Injection (arms, thigh, buttock)
- Oral hygiene (removable upper and lower denture)
- Eye irrigation, bed baths, hair care (washing, combing)
- Patient positioning and transfer techniques, clothing changes
- Ear irrigation and hearing aid placement and removal
- Bandaging and wound dressing (including fingers and toes)
- Urinary Catheterization - Female and Male (Uncircumcised)

Visual Inspection Features include:

- Decubitus Sacral Ulcer - Stage 1
- Dilated Pupil Comparison
- Cancerous Mole Comparison
- Reddened Skin Folds

Complete Range of Motion include:

- Trunk - Rotation, Hyperextension
- Neck - Rotation, Hyperextension, Lateral Flexion
- Shoulder and hip- Abduction, Adduction, Rotation, Hyperextension
- Elbow - Extension, Flexion, Pronation, Supination
- Knee - Extension, Flexion
- Wrist - Flexion, Hyperextension, Radial Flexion, Ulnar Flexion
- Ankle - Eversion, Inversion, Dorsiflexion, Plantarflexion
- Fingers and toes - Abduction, Adduction, Flexion (soft, lifelike material)

For additional training benefits: Add the optional IV Arm Attachment and Blood Pressure Arm
The manikin is delivered with:

- Male and Female Genitalia
- Wig
- Dentures
- Hearing Aid
- *12 cc Syringe

- Lubricant Spray
- Fluid Drainage Basin
- Stomach Reservoir Bag
- Bladder Reservoir Bag
- Bladder Reservoir Pressure Sleeve
- 16 FR Foley Silicone Catheter
- *140 cc Syringe
- Enema Reservoir Bag

Good, richer companion piece to the GERi page — same comparison table, and a genuinely useful upsell detail: KERi can be upgraded toward "Advanced" tier capability via optional add-on arms rather than requiring a whole new manikin purchase. One thing worth flagging: the URL itself.

[Cert] Item No. LF04020U, weight 13.5 kg, Make Nasco Healthcare, USA (consistent with GERi — no brand contradiction here). Typos corrected: "Rocognition" ? Recognition, "Intramascular" ? Intramuscular (same recurring typos as the GERi page's shared comparison table, suggesting both pages source that table from the same original document).

[Guessing] The URL is "keri-complete-nursing-skills-manikin-**2**" — the "-2" suffix strongly suggests a duplicate or superseded page exists at "keri-complete-nursing-skills-manikin" (no suffix) somewhere in your WordPress history, even if it's not currently linked in navigation. Worth a quick database check for an orphaned duplicate before this page gets more SEO investment — publishing fresh content on a "-2" URL while an old "-1" equivalent lingers unindexed (or worse, still indexed) is exactly the kind of duplicate-content risk flagged earlier this session with the Basic Heart Sounds pages.

[Cert] KERi is explicitly the non-age-specific counterpart to GERi (which has elderly-specific features) — same Life/form® build quality, same 35+ procedures, same OBRA compliance. [Cert] Genuinely useful and specific: optional IV Arm Attachment and Blood Pressure Arm accessories let a KERi Complete owner add "Advanced" tier IV insertion and blood pressure monitoring skills without purchasing the full Advanced manikin — a real upsell/upgrade path worth highlighting for budget-conscious buyers.

DESCRIPTION (copy-paste into WordPress):

Why Choose the KERi™ Complete Nursing Skills Manikin for Your Nursing Skills Lab in India?

The KERi™ Complete Nursing Skills Manikin (Item No. LF04020U, 13.5 kg, Make: Nasco Healthcare, USA) uses Life/form® molding techniques to deliver an unusually realistic appearance without being age-specific — the general-adult counterpart to the elderly-featured GERi™ manikin. It supports more than 35 patient care procedures and fulfills all OBRA training requirements.

Range of motion: trunk (rotation, hyperextension), neck (rotation, hyperextension, lateral flexion), shoulder and hip (abduction, adduction, rotation, hyperextension), elbow (extension, flexion, pronation, supination), knee (extension, flexion), wrist (flexion, hyperextension, radial/ulnar flexion), ankle (eversion, inversion, dorsiflexion, plantarflexion), and soft, lifelike fingers and toes (abduction, adduction, flexion).

Visual inspection features: Stage 1 decubitus sacral ulcer, dilated pupil comparison, cancerous mole comparison, reddened skin folds.

Procedures trainable: prostate examination (Stage B), ostomy care, tracheostomy care, nasogastric tube placement, oral/nasal lavage and gavage, enema administration (female), pap smears and douching, intramuscular injection, oral hygiene with removable dentures, eye irrigation, bed baths, hair care, patient positioning and transfer, ear irrigation and hearing aid placement, bandaging and wound dressing, and urinary catheterization (female and uncircumcised male).

Upgrade path: Add the optional IV Arm Attachment and Blood Pressure Arm to unlock Advanced-tier IV insertion and blood pressure monitoring skills on your existing KERi™ Complete manikin — no need to purchase a separate Advanced unit.

Delivered with: Male and female genitalia, wig, dentures, hearing aid, 12cc syringe, lubricant spray, fluid drainage basin, stomach reservoir bag, bladder reservoir bag, bladder reservoir pressure sleeve, 16 FR silicone Foley catheter, 140cc syringe, enema reservoir bag. Delivered in a storage carton; **carry case not included**.

Choosing your tier: The GERi™/KERi™ line spans four tiers — Basic, Complete (this unit), Advanced (adds IV insertion and blood pressure monitoring), and Auscultation (adds heart/lung sound recognition). Contact SEM Trainers to determine the right tier for your curriculum.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: How does KERi™ differ from GERi™? A: KERi™ has a general-adult, non-age-specific appearance. GERi™ has elderly-specific features (skin wrinkles, folds). Both share the same Complete-tier skill set.

Q: Can I add IV insertion and blood pressure monitoring later? A: Yes — optional IV Arm and Blood Pressure Arm accessories add these Advanced-tier skills without buying a new manikin.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

Delivered in a storage carton. Carry case not included.
