Product Description

Male genital insert for P93 PRO/BASIC

Male Genital Insert for P93 PRO/BASIC — Replacement Part

The Male Genital Insert (Item No. 1020234 [XP93-001], 0.43 kg, 36 × 17.5 × 10 cm, Brand: 3B Scientific) is the replacement/spare genital insert for the entire 3B Scientific P93 catheterization simulator line — compatible with the male BASIC unit, male PRO unit, and the combined male/female BASIC and PRO sets.

The insert features a soft, movable foreskin and a stretchable penis for practicing disinfection and catheterization gestures, with three adjustable levels of urethral narrowing — including the narrowest setting, which is intentionally non-catheterizable, teaching students to recognize when a suprapubic catheter is the correct clinical decision. It mounts via magnetic connectors into the stand (BASIC) or anatomically realistic abdominal model (PRO), letting institutions replace a worn insert without purchasing an entirely new trainer unit.

Compatible with: Catheterization Simulator BASIC, male (1020232); Catheterization Simulator PRO, male (1020230); Catheterization Simulator Set BASIC (1020842); Catheterization Simulator Set PRO (1020843).

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying medical simulators and clinical skills training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: Which units is this compatible with? A: All 3B Scientific P93 catheterization simulators with a male component — BASIC, PRO, and both combined male/female sets.

Q: Does this include the three urethral narrowing levels? A: Yes — the same three-level system as the standalone male trainers, including the intentionally non-catheterizable narrowest setting.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
