Product Description

The patient care and nursing skills training manikin GERi™ has an **elderly** appearance with skin wrinkles and folds. It offers a complete life-like range of motion for realistic patient positioning, and non-pinching joints - truly moves like a person. The manikin is lightweight and simulates a full-size adult, with an overall female appearance. It easily converts to a male with removal of the wig and attachment of the male genitalia. Visual Inspection: • Normal and Cancerous Mole • Stage 1 Sacral Ulcer • Dilated and Constricted pupils • Reddened Skin Folds **You can practice the following patient care and nursing procedures:** • Bandaging and Wound Dressing • Bed Baths • Clothing Changes • Denture Placement and Removal, Upper and Lower • Ear Canal Irrigation, Otic Drops, and Hearing Aid Placement • Eye Irrigation • Finger and Toe Manipulation with Bandaging - Flexible and Individually Molded • Hair Care Washing and Combing • Intramuscular Injection Sites: Arm, Thigh, Buttock • Oral and Nasal Hygiene: Lavage, Gavage, and Suctioning • Ostomy Care: Ileostomy and Colostomy Tissue

• Maintenance and Appliance Application, Lavage, and Suctioning • Patient Positioning • Patient Transfer Techniques • Pericare • Tracheostomy Care, Lavage and Suctioning **In addition to the basic version, the Complete GERi™ Manikin also offers the following skill training:** • Gastrostomy Procedures, Lavage and Gavage • Enema Administration, Female Only • Urinary Catheterization, Female and Uncircumcised Male • Pap Smears and Douching • Prostate Exam, Stage B • Nasogastric Tube Placement • Internal Fluid Reservoirs Ideal for OBRA Required Training. The manikin is delivers with:

- Male and Female Genitalia
- Wig
- Dentures
- Hearing Aid
- *12 cc Syringe
- Lubricant Spray
- Fluid Drainage Basin
- Stomach Reservoir Bag
- Bladder Reservoir Bag
- Bladder Reservoir Pressure Sleeve
- 16 FR Foley Silicone Catheter
- *140 cc Syringe
- Enema Reservoir Bag

Delivered in a storage carton. Carry case not included, item number for case is W44662

Why Choose the GERi™ Complete Nursing Skills Manikin for Your Simulation Lab in India?

The GERi™ Complete Nursing Skills Manikin (Item No. LF04001U) by Nasco Healthcare, USA is a full-size, lightweight elderly-care simulation manikin weighing 12.261 kg and measuring 94 × 52 × 28 cm. Designed with authentic aged skin including wrinkles and folds, realistic age-appropriate anatomy, and non-pinching joints that move like a real person, GERi™ Complete represents the mid-tier configuration of the Life/form® GERi™ range — adding six clinically significant procedural skills to the Basic GERi™ foundation. For NMC-mandated clinical skills labs, geriatric nursing programmes, post-basic nursing colleges, hospital in-service education teams, and simulation centres across India that require a dedicated elderly-care manikin capable of urinary catheterisation, nasogastric tube placement, gastrostomy, enema administration, pap smear, and prostate examination training in addition to the full suite of basic nursing care skills, the GERi™ Complete is the recommended configuration.

The manikin presents with female appearance by default and converts to male with removal of the wig and attachment of the included male genitalia, supporting gender-inclusive training across the full range of procedures. All joints offer a complete lifelike range of motion for realistic patient positioning and patient transfer practice. For visual inspection training, the manikin presents a normal mole, a cancerous mole, a Stage 1 sacral pressure ulcer, dilated and constricted pupils, and reddened skin folds.

Shared with the Basic configuration, the Complete GERi™ supports bandaging and wound dressing, bed baths, clothing changes, denture placement and removal (upper and lower), ear canal irrigation, otic drop administration and hearing aid placement, eye irrigation, finger and toe manipulation with bandaging, hair care, intramuscular injection at arm, thigh, and buttock sites, oral and nasal hygiene including lavage, gavage and suctioning, ostomy care covering ileostomy and colostomy tissue maintenance and appliance application, patient positioning, patient transfer techniques, pericare, and tracheostomy care with lavage and suctioning.

In addition to all of the above, the Complete GERi™ uniquely adds: gastrostomy procedures including

lavage and gavage; enema administration (female only); urinary catheterisation for both female and uncircumcised male; pap smears and douching; prostate examination at Stage B; nasogastric tube placement; and internal fluid reservoirs supporting realistic fluid management during catheterisation and gastrostomy procedures. The manikin is ideal for OBRA-required training.

Included in the delivery: male and female genitalia, wig, dentures, hearing aid, 12cc syringe, lubricant spray, fluid drainage basin, stomach reservoir bag, bladder reservoir bag, bladder reservoir pressure sleeve, 16FR Foley silicone catheter, 140cc syringe, and enema reservoir bag. Delivered in a storage carton. Carry case is not included — the carry case is available separately under item number W44662.

For institutions that require IV insertion and blood pressure monitoring in addition to the Complete skill set, the Advanced GERi™ (LF04030U) is the next tier. For heart and lung sound recognition, the GERi™ Auscultation Manikin (LF04003U) is available. The KERi™ range offers the same four configuration tiers in a younger adult appearance. All configurations are supplied by SEM Trainers.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators to 1,500+ institutions across 28 states. We provide pan-India delivery, on-site installation, faculty orientation, and dedicated after-sales support.

Q: What does the Complete GERi™ add over the Basic GERi™? A: The Complete adds six procedural skill sets not present in the Basic: gastrostomy procedures, enema administration (female only), urinary catheterisation (female and uncircumcised male), pap smears and douching, Stage B prostate examination, and nasogastric tube placement. It also includes internal fluid reservoirs.

Q: Is this manikin male or female? A: The GERi™ Complete presents as female by default. It converts to male with removal of the wig and attachment of the included male genitalia.

Q: Is a carry case included? A: No. The manikin is delivered in a storage carton. The carry case is available separately under item number W44662 — contact SEM Trainers to add it to your order.

Q: What is the difference between Complete, Advanced, and Auscultation GERi™? A: The Advanced GERi™ adds IV insertion and blood pressure monitoring to all Complete capabilities. The Auscultation GERi™ adds heart and lung sound recognition. SEM Trainers can supply all configurations — contact us to discuss which tier suits your curriculum.
