### Product Description

This trainer is aimed at all levels of surgeons in training whose surgical skills require extra practice. Once set up, the torso can be used to self-educate using his/her preferred surgical laparoscopic instrumentation for a variety of techniques. The Torso has the following features: • Can insufflate and maintain air tight pressure • Supports usage of wet tissue or prepared artificial materials • Can be used for surgical diathermy. There is a fixed metal plate in the base of the unit with a connection on the

outside to enable earthing • Can be easily cleaned by flushing out through a large airtight drain plug • Is light weight and has a carrying handle

### Why Choose the Surgery and Laparoscopy Torso for Your Simulation Lab in India?

The Surgery and Laparoscopy Torso from 3B Scientific is a trusted training tool used across simulation labs in India for hands-on laparoscopic surgery training practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with NMC's CBME requirements for surgical skills training and competency assessment.

### Who Is This Simulator Ideal For?

This product is recommended for surgical skill labs, minimal access surgery training centers, and medical colleges offering hands-on laparoscopic and endoscopic training workshops. Whether you are setting up a new simulation lab or upgrading your existing facility, the Surgery and Laparoscopy Torso offers an excellent balance of realism, durability, and training value.
