Item No. LF00933U

Weight 0.845kg

Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories:Decubitus Care

Product Description

Chronic foot ulcers affect elderly the most, we have designed the Life/form® Elderly Pressure Ulcer Foot for instruction on care and cleaning of pressure ulcers in various stages. Pressure ulcers are more likely to appear over pressure points such as heels, tips of toes, between toes, or anywhere the bones may protrude and rub against socks, shoes, or bed sheets. This replica contains all four severity stages: • Stage 1 – Located on the bottom of the toe. Surface of the skin is red. • Stage 2 – Located on the bottom of the foot just under the toe. Surface of the skin is red and deeper into the skin layers. • Stage 3 – Located on the side of the foot. Surface of the skin is red, looks more like a crater, and reaches the bottom layer of the skin. • Stage 4 – Located on the heel of the foot. Surface of the skin is red. A great amount of tissue has been damaged, including muscle, bone, joints, and tendons. The

Life/form® Elderly Pressure Ulcer Foot includes a foot and information key card.

Life/form® Elderly Pressure Ulcer Foot (LF00933U)

Chronic foot ulcers affect the elderly most of all. The Life/form® Elderly Pressure Ulcer Foot (Item No. LF00933U, 0.845 kg) by Nasco Healthcare, USA was designed for instruction on the care and cleaning of pressure ulcers at various stages — which are more likely to appear over pressure points such as heels, tips of toes, between toes, or anywhere bones may protrude and rub against socks, shoes, or bedsheets.

All four severity stages represented on one replica:

- **Stage 1** — Located on the bottom of the toe; skin surface is red.
- **Stage 2** — Located on the bottom of the foot just under the toe; skin surface is red and extends deeper into the skin layers.
- **Stage 3** — Located on the side of the foot; skin surface is red, crater-like, and reaches the bottom skin layer.
- **Stage 4** — Located on the heel; skin surface is red, with significant tissue damage including muscle, bone, joints, and tendons.

Comes complete with: the foot replica and an information key card.
