Product Description

All aspects of the simulator are lifelike in every detail. The upper buttock is flexible so that the trainee must raise the buttock in order to locate and make insertion into the anus for a lifelike enema. Portable and easy to keep clean, the simulator features a 1 liter fluid reservoir which is adequate for most demonstration and practice purposes. For large groups, a drainage tube is provided so that the fluid can be drained directly into a large container or sink for continuous use. Practice enema administration without the need for a real patient! Includes a hard carrying case and enema administration set. Why Choose the Enema Administration Simulator for Your Simulation Lab in India? The Enema Administration Simulator from 3B Scientific is a trusted training tool used across simulation labs in India for hands-on enema administration practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with Indian Nursing Council (INC) and NMC skill-lab requirements for nursing education programs. Who Is This Simulator Ideal For? This product is recommended for nursing colleges, BSc and GNM training

institutions, hospital in-service training departments, and skill labs focusing on patient care competencies. Whether you are setting up a new simulation lab or upgrading your existing facility, the Enema Administration Simulator offers an excellent balance of realism, durability, and training value.
