Categories:Enema Administration

Product Description

Build and evaluate patient care and nurse aid competencies! The 3B Scientific® Patient Care Manikin PRO for simulation in healthcare was developed for scenario based training of patient care and advanced nursing skills. The patient care manikin simulates an **adult, life-size patient**, with interchangeable genitals. It can be positioned like a real patient with natural movement of the arms, legs, and joints. You can even make the patient care manikin sit upright in the bed for treatments. It is made of durable, unbreakable, and water-resistant plastics for longevity in the everyday training use. The following clinical nursing and patient care skills and competencies can be trained and evaluated:

Patient and personal care:

- Transfer skills: lifting, carrying, and moving a patient
- Bed care of a patient
- Position changing and alignment of a patient
- Bathing a patient (genital care)
- Hair care (washing, combing, drying)
- Care and cleaning of eyes, ears and nose
- Personal hygiene and mouth denture care (partially removable prosthesis)
- Bandaging (includes amputation stump)
- Wound treatment and care (surgical staple seam, laceration and abrasions)
- Communication skills, especially step by step explanation of care measures

Medical care:

- Prevention of bedsores (Decubitus)
- Decubitus evaluation (stages 2-4)
- Decubitus care
- Prevention of muscle cramps
- Prevention of pneumonia
- Prevention of blood clots (Thromboses)
- Prevention of healthcare associated infection (HAI) by measures of medical asepsis and clean techniques
- Inhalation therapy
- Oxygen inhalation
- Use of ventilation bag (mouth to mouth and mouth to nose)
- Artificial respiration, oxygen treatment
- Care of tracheostomy
- Care of Diabetic Foot Syndrome (DFS)
- Ostomy care (colostomy)

- Irrigation of eyes and ears
- Intramuscular injections (buttocks)
- Subcutaneous injections (upper arms and thighs)
- Subcutaneous infusions

The **PRO** version includes removable organs for these **additional patient care training features**:

- Enema administration
- Male catheterization CH14
- Female catheterization CH 14
- Gastric (stomach) lavage
- Intestinal irrigation
- Irrigation of the bladder
- Irrigation of the vagina

Medical simulation training in healthcare: Training with the 3B Scientific® Patient Care Manikin PRO meets the OBRA requirements of Nurse Aide Training and Competency Evaluation Programs (NATCEP). **Delivered with:** Organs (lungs, heart, stomach, bladder and intestinal section), injection pads (upper arm, thigh, and buttocks), intestine tube, catheter, duodenal probe, talcum powder, Vaseline, lubricant, amputation stump, inserts with wound depictions (upper arm and thigh), and tools for fitting. The 3B Scientific® Patient Care Manikin is also available in a BASIC version, which comes without the above mentioned PRO features. [Click here](#) for more information about the basic version.

Critical — the worst instance yet of the outbound-link issue: this single page has **7 total links to competitor sites** — two a3bs.com links embedded in the body text (one for the "BASIC version" cross-sell, one for "replacement parts") plus **five more 3bscientific.co.uk links** in the comparison table's Item No. row. Also a typo in the table: "IM site at the **uper** legs" ? "**upper** legs." Otherwise this is an extremely rich, well-documented product page.

DESCRIPTION (copy-paste into WordPress — all outbound competitor links removed/converted to plain text):

3B Scientific® Patient Care Manikin PRO (1018816 [P10/1])

The 3B Scientific® Patient Care Manikin PRO (Item No. 1018816 [P10/1], 15.5 kg, 174 cm) was developed for scenario-based training of patient care and advanced nursing skills, simulating an adult, life-size patient with interchangeable genitals.

Moves and positions like a real patient. Natural movement of the arms, legs, and joints allows realistic positioning, including sitting the patient upright in bed for treatments. Made of durable, unbreakable, water-resistant plastics for longevity in everyday training use.

Comprehensive patient and personal care skills, including transfer skills (lifting, carrying, moving), bed care, position changing and alignment, bathing and genital care, hair care, eye/ear/nose care and cleaning, personal hygiene and denture care, bandaging (including amputation stump), wound treatment (surgical staple seam, laceration, abrasions), and step-by-step communication skills training.

Full range of medical care skills, including bedsore (decubitus) prevention and evaluation (stages 2–4), prevention of muscle cramps, pneumonia, blood clots, and healthcare-associated infections, inhalation and oxygen therapy, ventilation bag use, artificial respiration, tracheostomy care, diabetic foot syndrome care, colostomy care, eye/ear irrigation, and intramuscular and subcutaneous injections.

The PRO version adds removable organs for advanced procedures: enema administration, male and female catheterization (CH14), gastric lavage, intestinal irrigation, bladder irrigation, and vaginal irrigation.

Meets NATCEP requirements. Training with this manikin meets the OBRA requirements of Nurse Aide Training and Competency Evaluation Programs.

Comes complete with: organs (lungs, heart, stomach, bladder, intestinal section), injection pads (upper arm, thigh, buttocks), intestine tube, catheter, duodenal probe, talcum powder, Vaseline, lubricant, amputation stump, wound-depiction inserts (upper arm and thigh), and fitting tools.

Note: a BASIC version is also available without the PRO features listed above — contact us for details. Replacement parts for this updated model also fit the older P10/1000502 and P11/1000503 versions, with a fitting tool included.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of 3B Scientific products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: What does the PRO version add over the standard manikin? A: Enema administration, male and female catheterization, gastric lavage, intestinal irrigation, and bladder/vaginal irrigation via removable organs.

Q: Does this meet nurse aide training requirements? A: Yes — it meets OBRA requirements for Nurse Aide Training and Competency Evaluation Programs (NATCEP).

Q: Is a simpler version available? A: Yes — a BASIC version is available without the PRO-specific features.

Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.

Please note that the [replacement parts](#) of the updated 3B Scientific® Patient Care Manikin PRO also fit the older versions with the item number P10 / 1000502 (3B Scientific® Patient Care Manikin, I) or P11 / 1000503 (3B Scientific® Patient Care Manikin, II), a fitting tool will be delivered with the replacement parts.
