**SKU:**

**Categories:** Neonatal Patient Care

## Product Description

Notice the symptoms promptly! Represent the neonatal vital sings precisely Features 1. Available in four languages! (Japanese, English, Chinese, Korean) 2. Simply set with touch panel 3. Can set vital signs (Heart rate, Pulse rate, Respiration rate, Body temperature) at 5~6 levels. 4. You can practice measuring the pulse of anterior fontanel, and checking of cryptorchidism (undescended testicle) Practice The new born baby's body and texture of skin are reproduced by seamless doll. You can practice as if you touch to actual baby. 1. Heart Rate: Confirming the heart sounds near the heart 2. Pulse Rate: Measuring the pulse at 6 points 3. Respiration Rate: Confirming respiration by lifting the

abdominal area 4. Body Temperature: Measuring the body temperature (rectum)

### **Vital Signs Simulator Baby Touch (1020619 / M179)**

The Vital Signs Simulator Baby Touch (Item No. 1020619, MPN M179, 8.7 kg) helps students notice symptoms promptly by precisely representing neonatal vital signs on a realistic newborn model.

**Available in four languages** — Japanese, English, Chinese, and Korean — for flexible use across different training programs.

**Simple touch-panel control.** Vital signs — heart rate, pulse rate, respiration rate, and body temperature — can each be set at 5–6 levels via a simple touch panel interface.

**Goes beyond the core vitals.** Trainees can also practice measuring the pulse at the anterior fontanel and checking for cryptorchidism (undescended testicle).

**Realistic touch and feel.** The newborn's body and skin texture are reproduced by a seamless doll, giving trainees a tactile experience close to touching an actual baby.

#### **Four core measurement skills covered:**

- **Heart Rate** — confirming heart sounds near the heart
- **Pulse Rate** — measuring the pulse at 6 points
- **Respiration Rate** — confirming respiration by observing abdominal movement
- **Body Temperature** — measuring rectal body temperature

**Why Buy from SEM Trainers?** SEM Trainers & Systems has over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

#### **Frequently Asked Questions**

Q: What languages does the touch panel support? A: Japanese, English, Chinese, and Korean.

Q: What vital signs can be set and practiced? A: Heart rate, pulse rate, respiration rate, and body temperature, each adjustable across 5–6 levels.

Q: Can other assessments be practiced beyond the core vitals? A: Yes — pulse at the anterior fontanel and checking for cryptorchidism (undescended testicle).
