Clinical Chloe™ Advanced Patient Care Simulator (1017574 [W45071] / S222.M)

The Clinical Chloe™ Advanced Patient Care Simulator (Item No. 1017574 [W45071], MPN S222.M, 19 kg) offers a comprehensive range of hands-on patient care and clinical skills training in a single, anatomically realistic manikin.

Realistic head and airway features. Soft, lifelike face skin, a stylish wig, eyes seated in eyesockets for ophthalmic exercises, a movable jaw, and an ear canal for otic drops and irrigation, along with the ability to pass NP and OP tubes.

A body built to move like a real patient. Bends at the waist as in a human, with jointed elbows, wrists, knees, and ankles — and detaches at the waist for easy storage.

Comprehensive injection and IV training. 360° intramuscular and subcutaneous injection sites in the upper arms, an intramuscular injection site in the buttock, and an advanced training arm and hand for IV, IM, and sub-Q techniques.

Full reproductive and ostomy care training. Interchangeable male and female breasts (the left breast contains a malignancy for palpation practice), interchangeable male genitalia, and a tricuspid

valve permitting male or female catheterization with soft silicone catheters. Students can also practice transverse colostomy, ileostomy, and suprapubic procedures using quality internal, removable tanks, along with enema administration and vaginal douching and pap smear exercises with a realistic vagina and cervix.

Comes ready for extended training use, supplied with two spare bladder tanks and an instruction manual.
