Basic GERi™ Nursing Skills Elderly-Care Manikin (1005620 [W44077] / LF04040U)

The Basic GERi™ Nursing Skills Elderly-Care Manikin (Item No. 1005620 [W44077], MPN LF04040U, ~10.8 kg) by Nasco Healthcare has an elderly appearance with realistic skin wrinkles and folds, complete lifelike range of motion, realistic patient positioning, and non-pinching joints that move like a real person.

A true full-size, lightweight adult manikin. GERi™ measures 58" and weighs approximately 28 lbs, with an overall female appearance that converts to male with removal of the wig and attachment of male genitals — giving one manikin flexibility across training scenarios.

Visual inspection findings built right in: normal and cancerous mole, a stage 1 sacral ulcer, dilated and constricted pupils, and reddened skin folds — training students to recognize real visual indicators during patient assessment.

A comprehensive range of patient care simulation skills, including bandaging and wound dressing, bed baths, clothing changes, denture placement and removal (upper and lower), ear canal irrigation with otic drops and hearing aid placement, eye irrigation, finger and toe manipulation with bandaging (flexible and individually molded), hair care, intramuscular injection sites (arm, thigh, buttock), oral and nasal hygiene (lavage, gavage, and suctioning), ostomy care (ileostomy and colostomy tissue) with appliance maintenance, patient positioning and transfer techniques, pericare, and tracheostomy care.

Ideal for OBRA-required training. Note: carry case not included.

Part of a tiered GERi™/KERi™ family. This Basic tier covers skin inspection and care, bandaging, washing, denture and hearing aid placement, ear/eye irrigation, ostomy and tracheostomy care, positioning/transfer, pericare, and intramuscular injections. Complete and Advanced tiers add gastrostomy, pap smears and douching, enema administration, prostate exam, urinary catheterisation, and nasogastric tube placement, with the Advanced tier further adding IV insertion and blood pressure monitoring.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Can this manikin convert between male and female? A: Yes — GERi™ has an overall female appearance and converts to male with removal of the wig and attachment of male genitals.

Q: What's the difference between Basic, Complete, and Advanced tiers? A: Basic covers core skin care, bandaging, ostomy, and positioning skills. Complete adds gastrostomy, catheterisation, and NG

tube placement. Advanced further adds IV insertion and blood pressure monitoring.

Q: Does it come with a carry case? A: No — the carry case is not included with this manikin.
