Otto Ostomy™ Advanced Model

Item No. 1022946

MPN: 0310

[Read More](#)

SKU:

Categories:Ostomy Care

Product Description

Otto Ostomy™ Advanced Model is the ideal model for training patients and healthcare professionals on basic anatomy as well as what changes might occur with a stoma.

- Molded from a patient's CT scan, this model features 3D, removable, and color-coded urinary and digestive tracts.
- Helps healthcare providers better explain ostomies and patients understand their stomas.
- Ideal for demonstrating an end or loop ileostomy and colostomy, urostomy, and gastrostomy tube placement.

The more healthcare providers understand ostomies, the better they will be able to educate and encourage their patients about this life-changing event. Seeing the 3D digestive and urinary tracts and visualizing the location and function of the various organs is essential to learning, especially in those cases where cognitive processes or language may be an obstacle. The color coded organs displayed include: Stomach, Small Intestine, Large Intestine, Rectum, Kidneys, Ureters and Bladder.

Demonstrate an end or loop ileostomy and colostomy, urostomy and gastrostomy tube placement. Otto Ostomy™ Advanced Model is supplied with 18 stomas. Soft-sided carrying case included.

Otto Ostomy™ Advanced Model for Ostomy Patient Education and Nursing Training in India

The Otto Ostomy™ Advanced Model (Item No. 1022946, MPN 0310) is the ideal model for training patients and healthcare professionals on basic anatomy and the changes that occur with a stoma. Molded from an actual patient's CT scan, it features 3D, removable, color-coded urinary and digestive tracts.

It helps healthcare providers better explain ostomies and helps patients understand their own stomas — especially valuable in cases where cognitive processes or language may be a barrier to understanding. The model is ideal for demonstrating an end or loop ileostomy and colostomy, urostomy, and gastrostomy tube placement.

Color-coded organs included: Stomach, small intestine, large intestine, rectum, kidneys, ureters, and bladder.

Supplied with: 18 stomas and a soft-sided carrying case.

Specifications: Item No. 1022946. MPN 0310. Brand and weight to be confirmed.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying

ostomy care and patient education models to 1,500+ institutions across 28 Indian states, with pan-India delivery and dedicated after-sales support.
