Simulated Individual Burn Roll — 2nd Degree Deep Partial Thickness (Nasco Healthcare Life/form®) for Burn Assessment Training in India

The Simulated Individual Burn Roll, 2nd Degree Deep Partial Thickness (Item No. LF00725(C), Brand: Nasco Healthcare, USA) is a standalone 7" x 10" roll for use with rescue manikins or on a live patient in wound-makeup demonstrations, showing red, white, and dry coloration consistent with a deep partial-thickness second-degree burn presentation.

It's part of the same Simulated Burns product line available as a full Set of Four, and can be purchased individually to restock or supplement an existing kit.

Specifications: Roll size 7" x 10" (17.8 x 25.4 cm). Weight 0.2 kg. Brand: Nasco Healthcare, USA.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare Life/form® products in India with over 30 years of experience supplying moulage and burn assessment training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

FAQ Q: What does this burn roll represent? A: A 2nd degree deep partial thickness burn, showing red, white, and dry coloration for realistic burn assessment training.

Q: Is this sold individually or only as part of a set? A: It's available individually, as well as part of the Simulated Burns Set of Four covering all severity levels.

Q: How do I order from SEM Trainers? A: Contact sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
