Product Description

Produced in conjunction with a leading artist using Hollywood training techniques and years of military experience, the Moulage movie explains the use and application of every portion of the Casualty Simulation kits. Start simple and go for realism; each segment of moulage is represented within the frames you'll see during the 45 minutes presentation. Use it as a base to build your repertoire of the

most realistic moulage to add challenge to your next casualty incident.

Moulage Instructional Movie (Nasco Healthcare) — Training DVD for India

The Moulage Instructional Movie (Item No. 800-880, Brand: Nasco Healthcare, USA) is a 45-minute training DVD produced with a leading moulage artist, combining Hollywood special-effects techniques with years of military experience to teach the use and application of every component in Nasco's Casualty Simulation kits.

The film walks through moulage application from simple techniques through to full realism, with each segment demonstrated on camera. It's designed as a foundation for trainers to build their own repertoire of realistic wound moulage, adding depth and challenge to casualty incident training.
