Product Description

Acupuncture is a popular and ancient form of alternative medicine. This detailed anatomical poster labels all the important body points for acupuncture. The anatomy poster is a great tool for teaching or as a reference point. Printed on premium glossy (200g) paper. Convenient Poster size 98 x 68 cm (38.58 x 26.77").

Why Choose the 3B Scientific Body Acupuncture Chart for Your Institution in India?

The Body Acupuncture Chart (Item No. 4006730 / VR1820UU, ISBN: 978-3-82-940277-4) by 3B Scientific, Germany is a 98 × 68 cm (38.58 × 26.77") large-format anatomical poster printed on premium glossy 200g paper — labelling all the important body acupuncture points across the full body surface for teaching, clinical reference, and patient education. For AYUSH colleges, physiotherapy

training institutes, integrative medicine programmes, and clinical skills labs in India where acupuncture point identification is a taught and examined competency, this chart provides a comprehensive, high-resolution single-poster reference that covers the complete body acupuncture point system clearly enough for both classroom teaching and individual study.

The 98 × 68 cm format is large enough for use as a wall reference in a teaching room or clinic — students and practitioners can read point labels and meridian pathways clearly at normal reading distance without magnification. The premium 200g glossy paper stock provides sufficient durability for sustained wall mounting and repeated handling in a teaching environment, while delivering the colour reproduction quality needed to distinguish between the multiple meridian pathways and point classifications shown on the chart. Acupuncture is one of the oldest and most widely practised forms of alternative medicine globally, and body point identification is a foundational competency for practitioners of traditional Chinese medicine, AYUSH practitioners, physiotherapists incorporating dry needling, and integrative medicine specialists. This chart serves equally as a teaching tool for faculty and a reference aid for students and clinical staff.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying anatomical models, charts, and medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: What size is this chart? A: 98 × 68 cm (38.58 × 26.77 inches) — large enough for classroom wall mounting and clear reading at normal teaching room distances.

Q: What paper quality is used? A: Premium glossy 200g paper, providing durability for sustained wall mounting alongside high-quality colour reproduction for clear meridian and point identification.

Q: Are companion acupuncture charts available? A: Yes. The Ear Acupuncture Chart (VR1821UU) and Foot Reflex Zone Massage Chart (VR1810UU) by 3B Scientific are available from SEM Trainers as companion reference posters.
