SKU:

Categories:Acupuncture

Product Description

Acupuncture is an ancient and alternative medicine. This anatomical poster details the important zones and regions of the ear for acupuncture. Whether for education or as a reference tool this anatomy poster is great for anyone interested in ear acupuncture. Printed on premium glossy (200g) paper. Convenient Poster size 50x67cm (20x26").

Why Choose the 3B Scientific Ear Acupuncture Chart for Your Institution in India?

The Ear Acupuncture Chart (Item No. 4006731 / VR1821UU, ISBN: 978-3-82-940489-1) by 3B Scientific, Germany is a 50 × 67 cm (20 × 26") anatomical poster printed on premium glossy 200g paper — detailing all the important zones and regions of the ear for auricular acupuncture, for use as a teaching reference or clinical wall chart. For AYUSH colleges, integrative medicine programmes,

acupuncture training institutes, and clinical skills labs in India where auricular acupuncture point identification is a taught competency, this chart provides a comprehensive large-format reference for both faculty-led classroom teaching and individual student study.

Auricular acupuncture is a distinct and specialised system within traditional Chinese medicine — the ear's surface is mapped to zones corresponding to specific body organs, systems, and anatomical regions, and a separate dedicated chart is needed to teach and reference auricular point identification accurately. The 50 × 67 cm format is appropriately scaled for an ear-specific chart: the ear's anatomical features are rendered with the detail resolution needed for clear zone identification, while the poster remains compact enough for treatment room or consulting room wall mounting alongside the full Body Acupuncture Chart (VR1820UU). Premium 200g glossy paper provides the colour reproduction quality needed to distinguish the multiple zones and regions mapped across the ear's anatomical structures — helix, antihelix, tragus, antitragus, lobule, concha, and scaphoid fossa — and the durability for sustained wall mounting in a clinical or teaching environment.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of 3B Scientific products in India with over 30 years of experience supplying anatomical models, charts, and medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Q: What size is this chart? A: 50 × 67 cm (20 × 26 inches) — appropriately scaled for detailed auricular zone identification and suitable for treatment room or consulting room wall mounting.

Q: What paper quality is used? A: Premium glossy 200g paper, providing durability and high-quality colour reproduction for clear auricular zone mapping.

Q: Is a companion full-body acupuncture chart available? A: Yes — the Body Acupuncture Chart (Item No. VR1820UU, 98 × 68 cm) is available from SEM Trainers and frequently displayed alongside this chart in teaching and clinical settings.
