To unlock these benefits, simply scan the label located on your model and register online. All 3B Smart Anatomy features are **completely free of charge** for you. [Click here](#) to learn more.

4 part

This life size four part model of a female pelvis represents detailed information about the topography of bones, ligaments, pelvic floor muscles and female pelvic organs. The right half shows the bones with pelvic ligaments. In addition, the left half of the pelvis contains the muscles of the pelvic floor including levator ani, ischiocavernosus, deep and superficial transverse perineal, external anal sphincter, external urethral sphincter.

A partially removable bulbospongiosus demonstrates the vestibular bulb and Bartholin gland. The removable midsagittal section through the urinary bladder, vagina, uterus and rectum demonstrates the relationship to the muscles of the pelvic floor within its openings for urethra, vagina and rectum. The female genital organs are detailed for gynecological and other anatomy studies.

3B Smart Anatomy explained in 90 seconds:
