Product Description

This birthing simulator is a replica of the vagina with its surrounding anatomical structures which can be felt by hand. With 5 different cervices, allowing the student to feel the anatomical changes during birth, and a fetus doll with umbilical cord and placenta for learning and practicing obstetrics. This human birth simulator is a great tool for teaching the stages of human labor.
Birthing Simulator with 5 Different Cervices, 7 Part (1005103 [W19009] / ZKK-230-T)

This birthing simulator (Item No. 1005103 [W19009], MPN ZKK-230-T, 2.03 kg, 28×21.5×22.5 cm) is a replica of the vagina and its surrounding anatomical structures, built to be felt by hand.

Five interchangeable cervices for progressive learning. With 5 different cervices, students can feel

the anatomical changes that occur during birth, tracking cervical progression through labor by touch alone.

Complete with fetus and delivery accessories. A fetus doll with umbilical cord and placenta is included for learning and practicing obstetrics.

A great tool for teaching the stages of human labor, giving trainees hands-on, tactile understanding of birth progression.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical education resources to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.
