Product Description

Full-body Birthing Simulator for Full-Term Vaginal Delivery and Obstetric Skill Training. New and improved with full range of deliveries including breech, shoulder dystocia, cord prolapse, forceps and vacuum assist and the possibility to practice **multiple birthing positions**. Tablet and software included.

The benefits of using RealMom 2.0 Birthing Manikin:

Vaginal delivery training:

Simulate **realistic obstetric scenarios** with the RealMom birthing simulator. Practice vaginal deliveries with natural-feeling soft tissue, accurate internal anatomy and landmarks, and an authentic pelvic structure with an active soft tissue birth canal. The replaceable birth canal offers limitless, ultra-realistic deliveries.

- Massageable fundus
- Normal delivery
- Breech Shoulder dystocia - MacRoberts Maneuver
- Compound delivery
- Leopold maneuvers
- Assisted delivery with forceps or vacuum devices

Includes realistic placenta with umbilical cord to present with complications:

- Nuchal cord
- Cord prolapse
- Placenta previa
- Retained fragments

Remote controlled birthing scenarios:

Both the birthing simulator and the baby manikin are wireless and can be remote controlled with the included tablet and instructor software. The easy to use software allows the instructor to control the following birthing scenarios set-ups and vital signs:

- Cervical effacement, dilation and station
- Delivery speed and contractions

- Shoulder dystocia control

Physiological presentation:

- Maternal heart rate and tones (0-220, with presets for normal, Tachycardia, Bradycardia, palpable)
- Fetal heart rate (0-220)
- Blood pressure
- SPO_2
- Temperature

The software supports iOS, Android and any computer browser. Also includes a patient monitor software to use the tablet as virtual monitor with touchscreen capabilities.

Postpartum Hemorrhage Control:

The birthing simulator features realistic bleeding and the ability to effectively stop hemorrhage with a Bakri and Ebb Balloon.

A birthing manikin for realistic vaginal delivery training:

RealMom 2.0 offers a superior movement and flexibility and can simulate multiple birthing positions. This is one the main benefits of using this life-like birthing manikin as it realistically replicates birthing scenarios that obstetric personnel encounters in their every-day work, both in hospital settings or assisting births at home. The material used for the soft tissue and the skin of the birthing simulator feels almost life-like and the realistic facial features add an additional emotional factor to the training.

Easy to set up – ready to use:

RealMom 2.0 was designed with the user in mind. The birthing simulator is easy to set up and ready for training within seconds so you can avoid simulator downtime while teaching a class.

Delivery content:

- Full-body, wireless female birthing manikin - 65” H x 23.6” W x 11” D (165 cm x 60 cm x 28 cm) - 130 lbs (59 kg)
- Full-term, wireless baby manikin - 10” H x 5” W x 7” D (25.4 cm x 12.7 cm x 17.78 cm) - 6.3 lbs (2.85 kg)
- Instructor control interface tablet
- Instructor control interface software and license
- Touchscreen Patient Monitor
- Virtual monitor software
- Electrical: Input: 100 – 240VAC

Why Choose the Birthing Simulator RealMom 2.0 for Your Simulation Lab in India? The Birthing Simulator RealMom 2.0 from Gaumard is a trusted training tool used across simulation labs in India for hands-on birthing simulation practice. This simulator helps medical students and healthcare

professionals build critical competencies in a safe, controlled environment — fully aligned with NMC's CBME curriculum for obstetrics and gynecology practical training. Who Is This Simulator Ideal For? This product is recommended for obstetrics and gynecology departments, nursing colleges with midwifery programs, and government hospitals mandated to provide EmOC (Emergency Obstetric Care) training. Whether you are setting up a new simulation lab or upgrading your existing facility, the Birthing Simulator RealMom 2.0 offers an excellent balance of realism, durability, and training value. Why Buy from SEM Trainers? SEM Trainers is a leading supplier of medical manikins and simulators across India. Authorized Gaumard distributor in India. We provide complete support including pan-India delivery, on-site installation, faculty training workshops, and prompt after-sales maintenance. All our products carry genuine manufacturer warranty and meet ISO 9001 quality standards. Frequently Asked Questions Q: Is the Birthing Simulator RealMom 2.0 compliant with NMC simulation lab requirements? A: Yes, this simulator supports the skill-based training competencies specified under NMC’s CBME framework for Indian medical and nursing institutions. Q: Does SEM Trainers provide installation and training support? A: Absolutely. We offer on-site installation, hands-on demo sessions, and faculty orientation workshops for every product delivered, anywhere in India. Q: What is the warranty and how do I get support? A: All products come with standard manufacturer warranty. For support, reach us at sem@semtrainers.com or call +91-88495 63724.
