**SKU:**

**Categories:** Injections and Punctures

## Product Description

for W46502 and W46502/1 • Arm Skin (right and left) • Leg Skin (left) • Scalp • Veins  
**Skin and Veins — Full-Body Replacement Kit for Trainer W46502 / W46502/1**

The Skin and Veins kit (Item No. 1005834 [W46503], 0.12 kg, 33.0 × 25.4 cm, MPN: 1801) by **[CONFIRM: VATA — verify brand name]** is the designated replacement kit for trainer models W46502 and W46502/1. Unlike single-site replacement skins covered elsewhere in this batch, this kit covers multiple body regions in one package.

**What's included:** Arm skin (right and left), leg skin (left), scalp, and veins — giving a comprehensive refresh across the trainer's major skin surfaces rather than requiring separate individual purchases for each body part.

**Why a multi-region kit matters for a busy skills lab:** when a full-body trainer sees heavy use across multiple training scenarios (venipuncture, scalp IV access, leg access), wear tends to accumulate across several sites at once rather than just one. A combined kit lets institutions refresh the whole trainer in a single order instead of piecing together individual replacement parts.

**Why Buy from SEM Trainers?** SEM Trainers & Systems has over 30 years of experience supplying medical simulators and clinical skills trainers to 1,500+ institutions across 28 states in India. We provide pan-India delivery and dedicated after-sales support.

### Frequently Asked Questions

Q: Which trainer does this fit? A: Trainer models W46502 and W46502/1. Confirm you have one of these exact base units before ordering.

Q: What's included in the kit? A: Right and left arm skin, left leg skin, scalp, and veins.
