Product Description

The vein set for the arm and hand is used as a replacement part for the infant resuscitation manikin W44608. The Vein Set for Infant Resuscitation Manikin (Item No. 101-095) is a genuine replacement accessory manufactured by Nasco Healthcare, USA, designed specifically as a replacement vein set for the arm and hand of the Infant Resuscitation Manikin (model W44608). Weighing just 0.033 kg, this ultra-lightweight vein set is an essential consumable for medical training institutions, nursing institutes, neonatal ICUs, and simulation labs that regularly use the Infant Resuscitation Manikin for neonatal IV access and resuscitation training. Replacing worn or damaged vein sets with genuine parts ensures continued realistic and accurate peripheral IV cannulation training on the infant manikin.

Q1. What is the Vein Set for Infant Resuscitation Manikin used for? It is a replacement vein set for the arm and hand of the Infant Resuscitation Manikin (W44608), used to restore realistic peripheral IV

cannulation and vascular access training for neonatal resuscitation practice sessions.

Q2. Which manikin is this vein set compatible with? This vein set is specifically designed as a replacement for the Infant Resuscitation Manikin model W44608. Please verify compatibility with your specific manikin model before ordering.

Q3. When should the vein set be replaced? The vein set should be replaced when it shows signs of wear, puncture damage, leakage, or loss of realistic tactile feedback during IV cannulation training exercises, or periodically to maintain training quality and hygiene.

Q4. Why is it important to use a genuine replacement vein set? Using a genuine Nasco Healthcare replacement ensures a proper fit and realistic simulation of infant peripheral veins, maintaining the accuracy and longevity of the Infant Resuscitation Manikin without the risk of damage from incompatible third-party components.

Q5. What is the weight of this vein set? The vein set weighs just 0.033 kg, making it extremely lightweight and easy to store alongside the infant training manikin.

Q6. Who manufactures this product? It is manufactured by Nasco Healthcare, USA — a globally trusted brand in medical simulation and neonatal training equipment.

Q7. Who is this product ideal for? It is ideal for medical colleges, nursing institutes, neonatal ICUs, pediatric simulation labs, and healthcare training centers that regularly use the Infant Resuscitation Manikin (W44608) for IV access and neonatal resuscitation training.

Q8. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.
