Categories:BLS and CPR Accessories

Product Description

for W44216, W44217, W44661

Why Choose the Advanced Injection Arm: Vein Replacement Kit for Your Simulation Lab in India?

The Advanced Injection Arm: Vein Replacement Kit (Item No. LF01124U) by Nasco Healthcare, USA is a 0.39 kg genuine OEM vein replacement kit compatible with the Life/form® Advanced Injection Arms W44216, W44217, and W44661. The vein system is the consumable component of the injection arm that sustains the realistic puncture resistance, flashback, and vein feel that intravenous cannulation, venepuncture, and injection technique training depends on — it deteriorates with repeated needle punctures and must be replaced periodically to maintain training realism. A downloadable user manual

is available on the product page.

For nursing institutes, clinical skills labs, ACLS training centres, and NMC-mandated simulation labs in India that run regular IV cannulation and venepuncture training sessions on the W44216, W44217, or W44661 injection arms, maintaining a stock of genuine OEM LF01124U vein replacement kits ensures training quality is sustained across sessions without needing to replace the entire arm. The vein replacement is the most cost-effective maintenance action for injection arm trainers — restoring full puncture realism at a fraction of arm replacement cost. Only genuine OEM LF01124U kits are guaranteed to fit the compatible injection arm structures correctly and deliver the authentic needle resistance and flashback performance that validates correct venepuncture technique during training. Third-party vein inserts may not replicate the correct material compliance or puncture resistance of the OEM component, degrading technique feedback.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and genuine OEM consumables to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support. All products carry genuine manufacturer warranty.

Frequently Asked Questions

Q: Which injection arms is this vein replacement kit compatible with? A: This kit (LF01124U) is compatible with Life/form® Advanced Injection Arms W44216, W44217, and W44661. Confirm your arm model before ordering.

Q: How often should the vein system be replaced? A: Replacement frequency depends on session volume and needle gauge used. When puncture resistance noticeably decreases or flashback becomes inconsistent, replacement is due. Refer to the downloadable user manual for maintenance guidance.

Q: How do I order and get support from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724. We supply genuine Nasco Healthcare consumables with pan-India delivery.
