Skin and Vein Replacement Kit, Black — For Trainer W44217

The Skin and Vein Replacement Kit, black (Item No. LF01123U, 0.88 kg) by Nasco Healthcare, USA is the designated replacement skin and vein kit for trainer model W44217. It restores both the skin surface and underlying vein structure on an existing trainer without requiring a full unit replacement.

Why a combined skin-and-vein kit matters: unlike a skin-only replacement, this kit refreshes both layers together, which matters when the vein structure itself has degraded from repeated needle contact — not just the surface skin. This gives a more complete restoration of injection realism

(puncture resistance, vein "give," and flashback feel) than a skin-only swap.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorised distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills trainers to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Which trainer does this fit? A: Trainer model W44217. Confirm you have this exact base unit before ordering.

Q: Is this available in other skin tones? A: This listing is the black skin tone version. Contact our team to check availability of other skin tone options for the same trainer.
