Product Description

Advanced IV Hand Replacement Skin and Veins. Replacement part for W44117.

Life/form® Advanced IV Hand Replacement Skin and Veins — White (LF01140U) — Genuine OEM Consumable

The Advanced IV Hand Replacement Skin and Veins — White (Item No. LF01140U) is the genuine Nasco Healthcare replacement skin and vein set for the **Life/form® Advanced IV Hand trainer (W44117)** — white skin tone variant. It is the correct reorder item when the skin and vein assembly on your Advanced IV Hand unit has been exhausted through repeated IV cannulation and venipuncture practice sessions, restoring the trainer to full working condition without replacing the entire unit.

The replacement set includes the complete skin overlay and embedded vein tubing assembly for the dorsal hand and wrist region of the W44117 trainer. Once installed, the trainer delivers the same realistic needle insertion resistance, vein palpation feel, and simulated blood flashback confirmation as a new unit. Using a genuine Nasco Healthcare OEM replacement ensures correct fit, vein alignment, and skin material consistency with the original trainer specification.

Note: This is a consumable replacement part only. The Life/form® Advanced IV Hand trainer (W44117) is not included.

Skin tone: White. A dark skin tone variant is also available separately — see the Skin and Vein Replacement Kit, Black on this site.

Why Buy from SEM Trainers? SEM Trainers & Systems has over 30 years of experience supplying medical simulators and genuine spare parts to 1,500+ institutions across 28 states in India. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Which simulator is this replacement skin and vein set compatible with? A: This set is the OEM replacement for the Life/form® Advanced IV Hand trainer, Nasco Healthcare catalogue reference W44117. It is not confirmed as compatible with other IV hand or arm trainers in the catalogue.

Q: Is this a genuine OEM part? A: Yes. LF01140U is a genuine Nasco Healthcare Life/form® replacement consumable.

Q: Is a dark skin tone variant available? A: Yes. A dark skin tone replacement kit is available separately — see the Skin and Vein Replacement Kit, Black listing on this site.

Q: How do I know when the skin and vein set needs replacing? A: When the skin surface shows significant needle puncture accumulation that affects insertion resistance fidelity, or when the vein tubing no longer produces consistent simulated blood flashback, the skin and vein assembly should be replaced.

Q: What does the replacement set include? A: The complete skin overlay and embedded vein tubing assembly for the W44117 Advanced IV Hand trainer. Contact SEM Trainers to confirm exact contents if needed before ordering.
