Product Description

The bag is used as a replacement for the storage of artificial blood for the IV injection hand trainer W44600 The Reservoir Artificial Blood Bag for IV Injection Hand Trainer (Item No. 140-144) is a genuine replacement accessory manufactured by Nasco Healthcare, USA, designed specifically for storing and supplying artificial blood in the IV Injection Hand Trainer (model W44600). Weighing just 0.05 kg, this ultra-lightweight replacement bag is an essential consumable for medical training institutions, nursing institutes, and clinical skills labs that regularly practice intravenous cannulation and venipuncture procedures on the IV Injection Hand Trainer. Using a genuine replacement blood bag ensures proper fit, reliable performance, and continued realistic IV access training across multiple

sessions.

Q1. What is the Reservoir Artificial Blood Bag used for? It is used as a replacement storage bag for artificial blood in the IV Injection Hand Trainer (W44600), enabling realistic simulation of blood flashback during IV cannulation and venipuncture training.

Q2. Which trainer is this blood bag compatible with? This replacement blood bag is specifically designed for use with the IV Injection Hand Trainer model W44600. Please verify compatibility with your specific trainer model before ordering.

Q3. Why is artificial blood flashback important in IV training? Realistic blood flashback simulation is a critical part of IV cannulation training, as it confirms correct needle placement in the vein. The artificial blood bag provides this visual confirmation during practice, making training more realistic and effective.

Q4. When should the blood bag be replaced? The blood bag should be replaced when it shows signs of leakage, damage, or reduced capacity to hold and deliver artificial blood during training sessions.

Q5. Why should I use a genuine replacement blood bag? Using a genuine Nasco Healthcare replacement bag ensures a proper fit with the IV Injection Hand Trainer, maintaining the accuracy and realism of IV cannulation training without the risk of leaks or incompatibility.

Q6. What is the weight of this product? The blood bag weighs just 0.05 kg, making it extremely lightweight and easy to store alongside the IV Injection Hand Trainer.

Q7. Who manufactures this product? It is manufactured by Nasco Healthcare, USA — a globally trusted brand in medical simulation and clinical skills training equipment.

Q8. Who is this product ideal for? It is ideal for medical colleges, nursing institutes, clinical skills labs, and healthcare training centers that regularly use the IV Injection Hand Trainer (W44600) for intravenous access and venipuncture skills training.

Q9. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.
