Product Description

Replacement vein for injection arm 1005809
Here is the complete content for the **Replacement Vein for Injection Arm** product page:

The Replacement Vein for Injection Arm (Item No. 1013385 | MPN: S401.100.810) is a genuine spare part designed as a replacement vein for the Injection Arm trainer model 1005809. Weighing just 0.084 kg, this lightweight component is an essential consumable for medical training institutions, nursing institutes, and simulation labs that regularly use the Injection Arm trainer for IV cannulation and venipuncture practice. Replacing worn or damaged veins with genuine parts ensures continued realistic and accurate intravenous access training for healthcare students and professionals.

Q1. What is the Replacement Vein for Injection Arm used for? It is a spare replacement vein designed to restore the realistic IV cannulation and venipuncture training functionality of the Injection Arm trainer (model 1005809) when the original vein becomes worn or damaged from repeated use.

Q2. Which trainer model is this replacement vein compatible with? This replacement vein is specifically designed for use with the Injection Arm trainer model 1005809. Please verify compatibility with your specific trainer model before ordering.

Q3. When should the replacement vein be changed? The vein should be replaced when it shows signs of wear, puncture damage, leakage, or loss of realistic tactile feedback during IV cannulation and venipuncture training exercises.

Q4. Why is it important to use a genuine replacement vein? Using a genuine replacement vein ensures a proper fit and realistic training experience, maintaining the accuracy and durability of the Injection Arm trainer without the risk of damage from incompatible third-party components.

Q5. What is the weight of this product? The replacement vein weighs just 0.084 kg, making it compact, lightweight, and easy to install and store.

Q6. Who is this product ideal for? It is ideal for medical colleges, nursing institutes, clinical skills labs, and healthcare training centers that regularly use the Injection Arm trainer for IV access and venipuncture skills training.

Q7. Where can I purchase this in India? You can enquire and order through SEM Trainers at **+91-88495 63724** or **+91-98791 03905**, or visit semtrainers.com.
