Four-Vein Venipuncture Training Aid - Dermalike II™ Latex Free

Item No. 1017971 [W46519]
Weight 0.68kg
Dimensions 16.5 x 14.0 x 3.8 cm
Brand VATA
MPN: 1354

SKU:

Categories: Injections and Punctures

Product Description

Now 100% Latex-Free! These unique training aids are simpler and smaller versions of our popular Advanced Venipuncture Training Aid™. The Venipuncture Training Aid has four barely discernable blue veins in three different sizes – with a fourth vein more deeply placed. Your patients don't have one

size of veins, so why practice and learn on a “one size vein fits all” IV arm? Many clinicians have commented when using various other IV training models, “I wish all our patients had veins this big”. These models were specifically designed to make accessing more challenging, as this is how technique and confidence are improved. This model permits clinicians to learn technique and gain initial confidence when accessing the larger veins. Competency and technique can be improved by progressing from the easier large veins to the more difficult smaller and deeper veins. When accessing, the skin rolls as the vein is palpated and a “pop” is felt as the needle enters the vein. Many hospitals and home health sites utilize these training aids to insure that the competency of all staff members is assessed, maintained, demonstrated and improved continually. Now made with latex-free Dermalike™ with 50% less needle drag when accessing the underlying veins and improved tear resistance to permit a greater number of needle “sticks”. You do not need to use excessive force to access as has been reported when accessing the latex veins still used by other manufacturers. Redesigned, these models now come with a snap-on cover to protect the tissue pad when stored. These compact, lightweight, easily transportable, economical, and non-staining training aids are a great alternative to larger, heavier and more expensive models. Size: 6 1/2” X 5 1/2” X 1 1/4” Sh. wt. 1.5 lbs.

Why Choose the Four-Vein Venipuncture Training Aid — Dermalike II™ Latex Free — for Your Nursing Skills Lab in India?

The Four-Vein Venipuncture Training Aid, Dermalike II™ Latex Free (Item No. 1017971 [W46519], 0.68 kg, 16.5 × 14.0 × 3.8 cm, Brand: VATA, MPN: 1354) is a compact, progressive-difficulty venipuncture trainer. Unlike single-vein-size IV arms, this model features three visible veins of different sizes plus a fourth, more deeply placed vein — closer to real patient variability than a uniform training surface.

The design is intentional: students first build confidence accessing the larger, easier veins, then progress to the smaller, deeper ones as their technique improves. This mirrors real clinical practice far better than models designed to make every stick easy, and helps students develop genuine competence rather than false confidence. During access, the skin rolls realistically as the vein is palpated, and a distinct “pop” is felt as the needle enters the vein.

Now made with 100% latex-free Dermalike™ material, offering roughly 50% less needle drag than older latex-based training veins, along with improved tear resistance that allows significantly more needle sticks before the pad needs replacing. A snap-on cover protects the tissue pad during storage. Compact, lightweight, and non-staining, this model is a practical, economical alternative to larger, heavier venipuncture trainers — well suited to hospitals and training programs that need to continually assess and maintain staff competency.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of leading clinical skills training equipment in India, with over 30 years of experience supplying medical simulators and

clinical skills training equipment to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Is this suitable for latex-allergic students or staff? A: Yes — it's made with 100% latex-free Dermalike™ material.

Q: How many veins does this model have? A: Four — three visible veins of different sizes, plus a fourth, deeper vein for progressive difficulty.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
