I.V. arm right for Keri and Geri

Item No. LF04080U
Weight 0.99kg
Make: Nasco Healthcare, USA

[Read More](#)

SKU:

Categories: Injections and Punctures

Product Description

Optional IV arm for Keri Complete Nursing Manikin W44075. Features replaceable skins and latex veins that actually roll when palpated. A realistic flashback confirms proper needle placement and the shoulder can be used for intramuscular injection training. For use with all KERi and GERi manikins.

Why Choose the I.V. Arm, Right, for KERi and GERi — for Your Nursing Skills Lab in India?

This optional IV arm (Item No. LF04080U, 0.99 kg, Make: Nasco Healthcare, USA) adds IV insertion training capability to any KERi™ or GERi™ nursing manikin — the exact upgrade path referenced on our KERi™ Complete and GERi™ Complete listings for institutions wanting to add Advanced-tier skills without purchasing a whole new manikin.

Replaceable skins and latex veins roll realistically when palpated, and a realistic flashback confirms proper needle placement — the same tactile and visual feedback found on our standalone IV training arms. The shoulder can also be used for intramuscular injection training, adding a second skill set to the same accessory.

Compatible with: All KERi™ and GERi™ manikins.

Why Buy from SEM Trainers? SEM Trainers & Systems is an authorized distributor of Nasco Healthcare products in India with over 30 years of experience supplying medical simulators and clinical skills training accessories to 1,500+ institutions across 28 states. We provide pan-India delivery and dedicated after-sales support.

Frequently Asked Questions

Q: Which manikins is this compatible with? A: All KERi™ and GERi™ manikins, regardless of tier.

Q: Can this be used for intramuscular injection as well as IV? A: Yes — the shoulder area supports intramuscular injection training in addition to IV insertion.

Q: How do I order from SEM Trainers? A: Contact us at sem@semtrainers.com or call +91-88495 63724 for pricing and availability.
