Product Description

This easy to use training aid is ideal for practice in and demonstration of drawing arterial blood samples and for monitoring blood gases. Puncture locations can be identified through palpation of the pulse of radial and brachial artery. Realistic arterial pressure produces a lifelike backflow of blood in the syringe, confirming proper needle location in the artery. Delivered with 2 syringes and tubules, artificial arterial blood, 2 replacement arterial sections and carrying case. Why Choose the Arterial Puncture Arm for Your Simulation Lab in India? The Arterial Puncture Arm from 3B Scientific is a trusted training tool used across simulation labs in India for hands-on arterial blood gas sampling practice. This simulator helps medical students and healthcare professionals build critical competencies in a safe, controlled environment — fully aligned with NMC's Competency-Based Medical Education (CBME) guidelines for mandatory clinical skills training. Who Is This Simulator Ideal For? This product is recommended for medical colleges setting up OSCE stations, nursing institutions, and hospitals building clinical skills laboratories as per NMC guidelines. Whether you are setting up a new simulation lab or upgrading your

existing facility, the Arterial Puncture Arm offers an excellent balance of realism, durability, and training value. Why Buy from SEM Trainers?
